Posted May 25, 2012

Revision to Part 3: BS6014 Schedule Instructions, Guidelines Related to In-State travel for Employees, page 131.

The instructions to BS6014 were published with outdated reimbursement rates for lodging and meals (\$85 and \$36, respectively).

Instead of publishing those rates in the schedule instructions, current practice is to include a hyperlink to the guidance document where travel and reimbursement information is primarily communicated.

For current guidance related to travel and travel reimbursement, please refer to the TEA Guidelines Related to Specific Costs, posted in the TEA Allowable Cost Guidance section of the Division of Grants Administration [Grant Management Resources](#) page.
