Employer administrators and users are responsible for receiving electronic information about unemployment benefits, applying for mass claims and Shared Work, submitting and checking the status of an appeal, reporting a return to work date, and more.

Access

To access EBS, employers and administrators must log in with an existing TWC User ID and password or create a new User ID and password.

Creating a TWC User ID and Password

Go to the EBS web page and select Logon with your existing TWC User ID or create a new User ID.

On the Logon page, select the Sign Up for User ID link from Quick Links or at the end of the EBS User ID introduction.
Complete all required information on the **Sign Up for User ID** page then select **Next**.

Security Agreement

Carefully read the Security Agreement. Select Accept to continue.

Request Employer Access

Enter the employer’s TWC Tax Account Number then select Next.

Access Confirmation

For security purposes TWC reviews the User ID request from the first person requesting access to an employer account then sends a confirmation email after the request is approved or denied.

When approved, that person becomes the administrator for the employer account.
Administrator Duties

The administrator has the authority to:

- Designate additional administrators
- Approve or deny new user requests
- View lists of users, applicants, and denied users
- Manage permission levels for user accounts

Log in to EBS.

On the My Home page select the employer by entering the correct TWC Tax Account Number then select Select to continue.

The My Home page displays the employer in the User Information section and a confirmation message.

All employees requesting user access are listed here. Select **Review** to view an employee. Select **Approve**, **Deny**, or **Cancel**. Select Approve to proceed to the **User Permissions** page.
User Permissions

User permissions allow employers to customize the access users have to employer accounts.
TWC recommends that a minimum of two users be designated as administrators.

For users not designated as administrators, select only those permissions the user is authorized to have. DO NOT select Manage User Accounts for users not designated as administrators.
