Lockheed Martin Partners with Tarrant County College for \$1.5 Million Job-Training Grant

AUSTIN – Lockheed Martin Corp. has partnered with Tarrant County College (TCC) to provide job training for 1,200 new and incumbent workers using a \$1.5 million Skills Development Fund grant from the Texas Workforce Commission (TWC). The grant will benefit workers in the Workforce Solutions Tarrant County and Greater Dallas areas.

This grant will be used to provide customized training to 1,200 new and incumbent workers for industry-related topics with focused instruction on aircraft assembly, electrical engineering and computer aided engineering processes. Trainees will include aeronautical engineers, avionics technicians, electrical engineers and systems administrators. Upon completion of training, the workers will receive an average wage of \$47.58.

On September 8, 2016, TWC Chairman Andres Alcantar presented a \$1.5 million Skills Development Fund grant check to representatives from Lockheed Martin and Tarrant County College (TCC). “Skills grants deliver customized training solutions that help Texas employers and workers succeed in the marketplace,” said TWC Chairman Andres Alcantar. “This investment builds not only employee skills, but the capabilities of our community colleges to the benefit of employers and the community. We are pleased to make this investment.”

The Skills Development Fund grant program is celebrating 20 years of success as the state’s premier training program in 2015-16. The fund was initiated by the Legislature in September of 1995 and first began awarding contracts in 1996. During that time the Skills Development Fund grants have created or upgraded more than 329,333 jobs throughout Texas. The grants have assisted 4,141 employers with their customized training needs. The Legislature allocated \$48.5 million to the Skills Development Fund for the 2016-17 biennium. Employers seeking more information about the Skills Development Fund may visit the TWC website at www.texasworkforce.org/skills.
