The Governor's Texas Child Care Task Force wants to ensure that essential workers can access child care programs if they need it. Therefore, we are requesting child care providers let us know how many children are attending their programs. Please note that this information is for planning purposes and will not be displayed publicly.

When looking at your attendance for last week, what was the average number of children that attended each day? *For example, if you had between 50 and 60 kids attend your program each day, you would answer 55.*
