Trade Adjustment Assistance Guide

Overview of Guide

Purpose

The purpose of this guide is to provide the following:

- Information about the Texas Workforce Commission’s (TWC) Trade Adjustment Assistance (TAA) program and TAA policies and procedures
- Guidance and instruction for Local Workforce Development Boards (Boards) and their contractors on the provision of TAA workforce services process

Objectives

The objectives of this guide are to assist users to:

- establish the standards and procedures for delivery of TAA services; and
- ensure consistency in the provision of TAA services.
A-100: Trade Adjustment Assistance Program

Trade Adjustment Assistance (TAA) is a federally funded program established by the Trade Act of 1974 (Trade Act) to assist workers adversely affected by foreign trade who have lost their jobs because of a decline in production, sales, or outsourcing of jobs to foreign countries. The primary purpose of the TAA program is to help trade-affected workers move into suitable employment as quickly and effectively as possible. Suitable employment is employment that results in work of a substantially equal or higher skill level as compared to the worker’s past adversely affected employment, with wages of not less than 80 percent of the worker’s average weekly wage.

The Trade Act has been amended many times.

Differences in each of the amended versions of the Trade Act affect eligibility, benefits, services, and deadline dates. The TAA side-by-side comparison in Appendix A outlines the key differences in the benefits offered under different versions of the TAA program. A trade-affected worker receives services and benefits based on the governing regulations in effect at the time the certified petition is filed. Trade-affected workers can be covered and apply for benefits and services under petitions certified by the provisions of the 1974, 2002, 2009, 2011, and 2015 Trade Acts, as indicated in the following table.
Table 1: TAA Petitions

</tbody>
</table>

The Trade Act, as amended, requires intervention strategies that provide the opportunity for rapid, suitable, and long-term employment for Trade-certified workers and aligns the length of training with the length of unemployment insurance (UI) and Trade Readjustment Allowances (TRA) income support eligibility.

Trade-certified workers are encouraged to access all appropriate services to help them reenter the workforce through Workforce Solutions Offices—including labor market information, training referrals, career planning, and follow-up services—in order to promote integration of employment and training services as envisioned by the Workforce Investment and Opportunity Act of 2014 (WIOA).

A-101: Trade Adjustment Assistance Program Benefits

The following TAA benefits may be available to Trade-certified workers:

- **Employment and Case Management Services**—Skill assessments, career counseling, support services, information on training, and more.
- **Training, including On-the-Job Training (OJT), Apprenticeships, and Customized Training**—For reemployment in another job or career when suitable employment is not available.
- **Trade Readjustment Allowance**—Provides cash payments after Unemployment Insurance (UI) benefits are exhausted while a claimant is in a Trade-approved, full-time training program or on a waiver of the training requirement for basic TRA. Workers must meet training enrollment deadlines to be eligible.
• **Alternative Trade Adjustment Assistance/Reemployment Trade Adjustment Assistance**—A wage supplement program for adversely affected workers age 50 or older who find employment paying less than their trade-affected employment.

• **Job Search Allowance**—Covers expenses incurred while seeking employment outside the normal commuting area.

• **Relocation Allowance**—Provides reimbursement to an individual for approved expenses when relocating outside of the local commuting area.

• **Health Coverage Tax Credit**—Helps with the payment of premiums for qualified health coverage programs. This program is administered by the Internal Revenue Services (IRS).

**A-102: Trade Service Strategy**

The strategic planning process for each Board must include the development of local policies for a trade service strategy that coordinates various service approaches to accomplish the following:

• Assist Trade-certified workers to obtain suitable employment as quickly as possible

• Promote the use of WIOA career services to support rapid reattachment to the workforce, where an 80 percent wage replacement goal is achievable

• Refer participants to prevocational and vocational training if suitable employment is not available to the participant

• Develop OJT and customized training opportunities with employers offering jobs in occupations that meet the 80 percent wage replacement goal for Trade-certified participants including opportunities for participants to supplement OJT with remedial education as necessary before and during OJT

• Provide training that offers dual-language training programs as necessary to assist limited English proficiency (LEP) participants in achieving job readiness in a suitable occupation with long-term employment opportunities

• Assist in job retention and career advancement

**A-103: General Board Responsibilities**

Boards must amend and modify their strategic plans to incorporate and coordinate the design, policy development, and management of the integration of Trade-funded activities and other funded support services, as well as address plans for meeting the training needs of LEP participants. Boards must work with training providers to ensure that dual-language training is available.

Boards must ensure that Trade-affected workers are fully registered in WorkInTexas.com before receiving any services from Workforce Solutions Office staff as set forth in WD Letter 01-20, issued January 6, 2020, and titled “Managing Individuals in the New WorkInTexas.com System.”

Boards also must make a strong effort to develop OJT opportunities with employers.

**A-104: Reporting**

Workforce Solutions Office staff must document all participant services in The Workforce Information System of Texas (TWIST), in the Reemployment and Training Plan (REP), and on a hard copy of the signed Explanation of Services form. Workforce Solutions Office staff retains
such documentation in the participant’s files. Documentation must be available in case of an appeal.

**A-104.a: Reporting Characteristics for Trade-Affected Workers**

Boards must ensure that Workforce Solutions Offices staff completes the following tabs under the TWIST Intake Common Specialized Services and TAA Program Detail on the same day staff completes the TWIST Application Date field:

- The Identity tab
- The Characteristics tab
- The Education tab
- The Military tab
- The Disability/Medical tab

*Note:* The application date is the date an individual first requests TAA services.

**A-104.b: Reporting Tenure**

Boards must ensure that Workforce Solutions Office staff does the following:

- Calculates tenure based on the number of months a trade-affected worker was employed with the trade-affected employer
- Enters the tenure into the TWIST TAA Program Summary tab

**A-104.c: Reporting Remedial and/or Prerequisite Training Included in Trade Adjustment Assistance—Approved Training**

The US Department of Labor (DOL) allows weekly support payments—Additional Trade Readjustment Allowances (Additional TRA)—to be paid to trade-affected workers who are eligible for benefits and are participating in full-time TAA-approved training.

Boards must ensure that Workforce Solutions Office staff enters the total number of weeks of a trade-affected worker’s TAA-approved remedial and/or prerequisite training into the TWIST TAA Program Detail Summary tab so that state office staff can calculate Additional TRA amounts.

Boards must ensure the following:

- If the planned number of remedial and/or prerequisite weeks is amended on the TAA Reemployment and Training Plan (REP), the number is also changed in TWIST.
- Case managers document in TWIST Counselor Notes the actual number of weeks and corresponding dates a trade-affected worker is enrolled in remedial and/or prerequisite training.

Boards must ensure that Workforce Solutions Office staff uses TWIST service code 190—Prerequisite Training if coursework is required by the training provider prior to a trade-affected worker’s acceptance into a training program, and that staff includes prerequisite training as part of the total training program hours and documents it on the TAA REP.

**A-104.d: Reporting Integrated Remedial Training**
Integrated remedial training is training in which the provider teaches both remediation courses and occupational vocational training concurrently. When a TAA-approved training program includes integrated remedial training, Boards must ensure that Workforce Solutions Office staff selects sub-fund code 50–Integrated Remedial in the Occupational/Vocational service fund code line in TWIST Service Tracking.

Note: Boards must be aware that more than one sub-fund code can be entered into TWIST; however, each sub-fund code requires its own fund code line.

**A-104.e: Reporting Part-Time Training**

Boards must be aware that DOL allows part-time TAA-approved training for participants certified under Trade petition numbers 70,000 and above.

Note: Boards must be aware that trade-affected workers are eligible for TRA only if they are enrolled in full-time TAA-approved training.

When a trade-affected worker is enrolled in part-time training, Boards must ensure that Workforce Solutions Office staff selects sub-fund code 49–Part-Time Training in the Occupational/Vocational Training service fund code line in TWIST Service Tracking.

**A-104.f: Reporting Distance Learning**

Boards must ensure that, if the TAA-approved training is entirely distance learning training, that is, online training, Workforce Solutions Office staff selects sub-fund code 48–Distance Learning in the Occupational/Vocational service fund code line in TWIST Service Tracking.

**A-104.g: Reporting TWIST Fund Codes**

Boards must ensure that Workforce Solutions Office staff uses TAA fund code 121–Trade Adjustment Assistance if TAA funds are used for any portion of the TAA-approved training.

Boards must ensure that Workforce Solutions Office staff uses TWIST fund code 136–TAA/Other if TAA-approved training is funded completely by other government or private sources (for example, WIOA, Temporary Assistance for Needy Families, Supplemental Nutrition Assistance Program, Pell Grants, US Department of Veterans Affairs, or scholarships).

Boards must be aware that the “planned cost of training” is an estimated cost of the entire training program. The estimated cost is used to determine the average cost of TAA-approved training programs; the average cost is used to determine the annual reasonable cost standard.

Boards must be aware that the estimated cost of training is not the annual obligated amount associated with contracted distribution of TAA funds to Boards.

Boards must ensure that Workforce Solutions Office staff:
• enters the estimated cost into TWIST Service Tracking in the Planned Training field; and
• ensures that the estimated cost entered into TWIST is the same amount recorded in the TAA REP.

A-105: Merit Staffing Requirements

Boards must ensure that only state merit staff provides the following TAA services:
• Approval of proposed TAA-supported training, including any amendments to the REP
• Approval and review of a waiver of the training requirement if:
  ➢ the worker is unable to participate in the training because of health issues;
  ➢ the enrollment date for training has passed; or
  ➢ training is not reasonably available to the worker.
• Revocation of a waiver of the training requirement if training becomes feasible

Boards must ensure that if the denial of a training request, waiver request, or revocation of an existing waiver of the training requirement could lead to loss of TAA benefits or services, a recommendation for denial is forwarded to TWC TAA Technical Assistance to issue such actions as formal, appealable decisions. Boards must be aware that revocation of a waiver for the purposes of beginning training does not meet these criteria, and can be issued by Workforce Solutions Office state merit staff.

Boards must ensure that when state merit staff approves TAA-supported training, or approves, reviews, or revokes a waiver of the training requirement for training that is feasible and appropriate, the state merit staff enters corresponding entries into TWIST, as follows:
• REP and REP amendment approval: Enter TWIST service code 68–Employability Development Plan using TAA fund code 121–Trade Adjustment Assistance Act.
• Waivers of the training requirement: Under the TAA Program Detail Waiver tab, enter Start Date, End Date, Approving State, Waiver Status, Effective Date, and Reason.
• Document services for all corresponding entries in TWIST Counselor Notes, including both of the following:
  ➢ Training Plan Approval and Amendment: training occupation, training institution, degree or credential, dates of planned participation, and total costs
  ➢ Waiver Issuance: support for qualifying criteria whether waiver criteria continue to apply, and if not, the remedial action taken

Boards may designate TAA-funded state merit staff and other state merit staff, including those primarily funded by Wagner-Peyser, to provide TAA services.

Boards must ensure that non–TAA-funded state merit staff providing TAA services reports that time in CHAPS, TWC’s time tracking system, using funding code 016889913040–TAA career planning.

Boards must be aware that forwarding a REP to TWC’s TAA Technical Assistance and receiving a reasonable cost of training standard determination does not constitute REP approval. Boards must ensure that approval is performed by state merit staff at the Board or Workforce Solutions Office level.
Note: US Department of Labor Training and Employment Guidance Letter 15-12, issued March 7, 2013, and titled “Delivery of Benefits and Services to Trade Adjustment Assistance (TAA) Program Recipients through the American Job Center Network Delivery System,” clarifies the merit-staffing requirements reflected in 20 Code of Federal Regulations §618.890. The guidance states that only state merit staff can approve or deny TAA benefits or services.
Part B-100: Trade Petitions

Potential Trade-affected workers and companies may submit petition applications for benefits and services under Trade Adjustment Assistance (TAA). The US Department of Labor (DOL) Office of Trade Adjustment Assistance (OTAA) conducts investigations and makes determinations based on federal TAA guidelines.

B-101: Trade Petition Process

Local Workforce Development Boards (Boards) must be aware of the following:

The first step in the TAA petition process is to determine whether to file a petition. The following questions are designed to help in making the decision:

- Did the company shift production or services to a foreign country?
- Did foreign imports or supply of services cause a decline in sales or production for the company?
- Was the company a downstream producer or service supplier of a Trade-certified company?
- Was the company identified by the International Trade Commission (ITC) as having “injury” or “market disturbance” in the Federal Register?

A petition must be filed with DOL OTAA. If the petition is certified, Trade-affected workers will be eligible to individually apply for TAA. The petition form and filing instructions are available at Investing in Trade-Affected Workers.

A petition may be filed by any of the following:

- Group of at least three coworkers from the same firm at the same job location
- Union official
- Company official
- State or local agency representative at the Workforce Solutions Offices

Petitioners must complete the petition form by answering all questions before submitting it to DOL. A completed petition describes a group of workers working at a specific location for a specific company producing a specific product or group of products. If the group of workers described in the petition is certified, the certification will cover all workers in the group who also meet the certification requirements whether or not their names were on the petition.

TAA petitions can be filed at any time after worker separations or a threat of separations begins, but must be filed within one year of the earliest date on which workers lost jobs with the employer or had hours/wages reduced.

Petitions filed by a group of adversely affected workers must be signed by at least three coworkers. Petitions filed by any other authorized representative require only one signature.
Petitions may be filed in the OTAA online system or may be mailed to both the Washington, DC, DOL office and the corresponding Board.

Eligible worker groups include those producing articles or supplying services considered adversely affected based on any of the following:

- An increase in imports of articles or services
- A shift in production or services to a foreign country
- An increase in imports of finished articles for which the worker’s firm creates component parts or supplies services
- A company is a downstream producer or service supplier to a TAA-certified firm or worker group
- A firm is specifically identified by the ITC as having “injury” or “market disruption” in the determination.
Part B-200: Workforce Innovation and Opportunity Act

The TAA Program is a required one-stop partner under WIOA statute and regulations. As a WIOA required partner, the TAA Program is responsible for providing access to TAA benefits and services to adversely affected workers.

B-203: Dislocated Worker Service Delivery

Boards must be aware that all Trade-certified workers are also eligible for WIOA dislocated worker services and that the Trade Act requires Boards to provide Rapid Response services and career services available under WIOA and other federal programs to dislocated workers filing a Trade petition.

Boards may use WIOA dislocated worker funds to support the design and delivery of services to dislocated workers, including those who are Trade-certified. The TAA program is a complement to WIOA dislocated worker services, not a replacement.

Boards must be aware of the following:

- Dislocated worker services begin when either of the following takes place:
  - Trade petition filed
  - Layoff notice received
- TWC’s Rapid Reemployment Services identify UI claimants who are likely to exhaust benefits.
- WIOA funding allocated to the Boards for dislocated worker services includes funding for:
  - Rapid Response services orientation and workshops, for example
  - Outreach, reemployment assistance, assessment, and career planning, including the development of individual Reemployment and Training Plans (REPs)
  - Referrals to training and support services
  - Follow-up services for both Trade-certified and non–Trade-certified dislocated workers

Boards must ensure that delivery of these services flows seamlessly from initiation of Rapid Response services to reemployment, with an integrated array of services that provides eligible customers the benefit of activities most suited to their needs.
B-201: Dislocated Worker Service Delivery

Boards must be aware that all Trade-certified workers are also eligible for WIOA dislocated worker services and that the Trade Act requires Boards to provide Rapid Response services and career services available under WIOA and other federal programs to dislocated workers filing a Trade petition.

Boards may use WIOA dislocated worker funds to support the design and delivery of services to dislocated workers, including those who are Trade-certified. The TAA program complements but does not replace WIOA dislocated worker services.

Boards must be aware of the following:

- Dislocated worker services begin when either of the following takes place:
  - A trade petition is filed
  - A layoff notice is received
- TWC’s Rapid Reemployment Services identify UI claimants who are likely to exhaust benefits.
- WIOA funding allocated to the Boards for dislocated worker services includes funding for:
  - Rapid Response services orientation, workshops, and the like;
  - outreach, reemployment assistance, assessment, and career planning, including the development of individual Reemployment and Training Plans (REP)s;
  - referrals to training and support services; and
  - follow-up services for Trade-certified and non–Trade-certified dislocated workers.

Boards must ensure that delivery of these services flows seamlessly from initiation of Rapid Response services to reemployment, with an integrated array of services that provides eligible customers the benefit of activities most suited to their needs.

B-202: Rapid Response Services

Boards must ensure that Rapid Response services are provided.

For employers facing major layoffs, Rapid Response is an on-site, early-intervention program that provides transition and reemployment services to affected workers. The goal of Rapid Response services is to help affected workers find new employment before they become eligible to receive UI benefits. The best employment transition results in unemployment lasting no more than a few days.

Rapid Response is administered at the state level but operated at the Board level. Each Board has a Rapid Response coordinator who can provide more information about Rapid Response services.

Boards are encouraged to make Rapid Response services available to all potential Trade-affected employers, but Boards are required to provide the services when the following circumstances occur:

- An announcement of a permanent closure of a facility or plant, including Worker Adjustment and Retraining Notification (WARN) notices, regardless of the number of workers affected
- A layoff involving 50 or more workers is announced
• A mass job dislocation results from a natural disaster
• A TAA petition is filed

Rapid Response services include the following:
• Job search assistance
• Labor market information
• Group stress management seminars
• Group financial management seminars
• Information about mass filing of UI claims
• Group orientation to Workforce Solutions Office services
• Seminars on change management

For larger numbers of affected workers, on-site services may be made available. If the number of affected workers is small, employers can direct workers to a Workforce Solutions Office where they can receive Rapid Response services.

**B-202.a: Rapid Response Coordinator’s Role**

Boards must ensure that within 48 hours of receiving notification of an imminent layoff, and before the layoff has occurred, the local Rapid Response coordinator initiates and schedules Rapid Response services by contacting the employer. The Rapid Response coordinator schedules an on-site management meeting that includes representatives of the employer and the workers. If a union represents the workers, a union representative must be included in the meeting.

Boards must ensure that, as part of the on-site management meeting, staff collects the following information:
• Timeline for layoff
• Number of employees affected
• Types of positions affected
• Work shifts involved
• Space for on-site seminars and workshops
• Company severance package
• Security provisions
• Contracted services
• Whether filing a TAA petition is appropriate

Boards must ensure that, as part of the on-site management meeting, staff shares the following information:
• Overview of all Workforce Solutions Office services
• TAA petition process
• TAA program benefits for eligible employees
• Rapid Response team access to employer facilities
• Employee orientation opportunities that are scheduled around shifts
• Crisis counseling for employees
• Contact information for the Rapid Response coordinator
Boards must be aware that early intervention is critical to coordinating services with management and the workers subject to layoff.

Boards must ensure that:
- if the layoff has already occurred, the Rapid Response coordinator requests a mailing list of affected workers from the employer in order to conduct outreach; and
- the Rapid Response coordinator completes a Layoff Notification and notifies Layoff Notification Central at the Dislocated Workers Unit at layoff.notificationcentral@twc.state.tx.us.

B-202.b: Rapid Response Workshops and Seminars
Boards must ensure that Rapid Response services at the work site, including workshops and seminars for employees, provide information about the following topics:
- Financial management and budgeting, including financial literacy
- Labor market information, including a list of area high-demand occupations with wage information
- Stress management
- Résumé writing
- Interviewing skills
- Job search procedures and strategies

B-202.c: Rapid Response Trade Adjustment Assistance Employee Orientation
Boards must ensure that the employee orientation for potential Trade-certified workers includes the following:
- Completion of Rapid Response registration and survey
- Orientation to the TAA program, including an explanation of the TAA benefits notification process and instructions on what to do if the petition is approved
- Registration with WorkInTexas.com, TWC’s job-matching and service-tracking system
- Distribution of the TAA Handbook and related materials
- Time frames for approval of TAA petitions, UI claims, and applications for TRAs, which may require enrollment in training
- Information on the Health Coverage Tax Credit (HCTC) and Alternative/Reemployment Trade Adjustment Assistance.

B-202.d: Rapid Response Registration
Trade Rapid Response participants are required to register with WorkInTexas.com before services can be provided

Boards must ensure that at completion of the employee orientation, staff must encourage affected workers to register in WorkInTexas. This facilitates the following:

- The first service is automatically recorded in TWIST’s Service Tracking based on the Rapid Response registration, simplifying the data entry process
- The creation of a TWIST Intake—Common record to which Workforce Solutions Office staff can add intake information at the Specialized Services Intake Level as it is received, which expedites the worker’s eligibility for WIOA dislocated worker services and coenrollment with the TAA program.

**B-203: Petition Inquiry**

TWC staff enters TAA petition information into TWIST, which generates a TAA Program Detail record in TWIST. Board and Workforce Solutions Office staff can perform TAA petition inquiries from TWIST Group Actions through search by petition number or company name.

**B-204: Workforce Innovation and Opportunity Act Services**

The Workforce Innovation and Opportunity Act (WIOA) authorizes “career services” for adults and dislocated workers, rather than “core” and “intensive” services, as authorized by the Workforce Investment Act. The three categories of career services are basic career services, individualized career services, and follow-up services, which can be provided in any order, as needed. Career services under this approach provide local areas and service providers with flexibility to target services to the needs of the customer.

**B-204.a: Basic Career Services**

Boards must ensure that Workforce Solutions Office staff makes basic career services available to all customers. The list of basic career services is in the WIOA Operations Guide. Basic career services include the following:

- Determining eligibility for assistance under WIOA Title I, Subtitle B
- Providing outreach, intake (which might include worker profiling), and orientation to the information and other services available through the one-stop delivery system
- Making an initial assessment of skill levels (including aptitudes, abilities, and skills gaps) and support service needs
- Providing labor exchange services, including job search and placement assistance, and, if appropriate, career counseling
- Providing information on in-demand industry sectors and occupations and on nontraditional employment
- Providing information on appropriate recruitment and other business services on behalf of employers
- Providing referrals to activities offered by other programs and services, and coordinating with those programs and services
- Providing accurate statistics on workforce and labor market employment related to local, regional, and national labor market areas, including the following:
  - Job vacancy listings
  - Information on the job skills necessary to obtain the jobs listed
  - Information on local occupations that are in demand, including the earnings, the skills required, and the opportunities for advancement
• Providing information on the cost and performance of the eligible providers of training services offered by the program and on the:
  ➢ eligible providers of youth workforce investment activities;
  ➢ providers of adult education;
  ➢ providers of career and technical education activities at the postsecondary level;
  ➢ providers of career and technical education activities that are available to school dropouts; and
  ➢ providers of vocational rehabilitation services.
• Providing information, in formats that are usable by and understandable to Workforce Solutions Office customers, on how well the local workforce development area (workforce area) is performing according to local performance accountability measures and any additional performance information related to the workforce area’s system
• Providing information on the availability of support services and assistance
• Providing information and assistance on how to file claims for unemployment compensation
• Helping to establish eligibility for programs of financial aid assistance for the training and education programs that are not funded under WIOA

Note: The costs associated with providing meaningful assistance with UI claims may be paid for by the state’s UI program, the WIOA adult or dislocated worker programs, Wagner-Peyser Employment Service, or some combination of these funding sources.

**B-204.b: Individualized Career Services**

Boards must ensure that individualized career services are:
• available in all Workforce Solutions Offices; and
• made available to an individual when Workforce Solutions Office staff determines they are appropriate.

Boards must be aware that Workforce Solutions Office staff may use recent previous assessments by partner programs to determine if individualized career services are appropriate.

The list of individualized career services can be found in the WIOA Operations Guide. Boards must ensure that individualized career services include the following:
• Comprehensive and specialized assessments of the skill levels and service needs of adults and dislocated workers, which may include the following:
  ➢ Diagnostic testing and use of other assessment tools
  ➢ In-depth interviewing and evaluation to identify employment barriers and appropriate employment goals
• Development of an individual employment plan to identify employment goals, appropriate achievement objectives, and an appropriate combination of services for the participant to achieve the employment goals, including providing information on eligible training providers and career pathways to attain career objectives
• Group counseling
• Individual counseling
• Career planning
• Short-term prevocational services, including development of learning skills, communication skills, interviewing skills, punctuality, personal maintenance skills, and professional conduct to prepare individuals for unsubsidized employment or training
• Internships and work experiences linked to careers, including transitional jobs
• Workforce preparation activities
• Financial literacy services
• Out-of-area job search assistance and relocation assistance
• English language acquisition and integrated education and training programs

B-204.c: Follow-up Services
Boards must ensure that Workforce Solutions Office partner staff provides follow-up career services as appropriate to participants in unsubsidized employment for up to 12 months after the first day of employment.

Counseling about the workplace is one example of an appropriate follow-up career service.

Boards must be aware that follow-up career services do not extend the date of exit in performance reporting.

B-205: Training Services
Training services can be critical to the employment success of many adults and dislocated workers.

Boards must be aware that there is no sequence requirement for career services and training. Workforce Solutions Office staff may determine that training is appropriate regardless of whether an individual has received basic or individualized career services first. Under WIOA, training services may be provided if Workforce Solutions Office staff determines, after an interview, evaluation or assessment, and career planning, that the individual meets the following conditions:
• Is unlikely or unable to obtain or retain employment that leads to economic self-sufficiency or wages comparable to or higher than wages from previous employment through career services alone
• Needs training services to obtain or retain employment that leads to economic self-sufficiency or wages comparable to, or higher than, wages from previous employment
• Possesses the skills and qualifications to successfully participate in the selected program of training services
• Is unable to obtain grant assistance from other sources to pay the costs of relevant training within the selected program of training services
• Is a member of a worker group covered under a TAA petition and is awaiting determination
• Is determined eligible in accordance with the state and local priority system in effect for adults
• Has selected a program of training services that is directly linked to employment opportunities

Boards must ensure the following:
• Training services, when determined appropriate, are provided through either an Individual Training Account (ITA) or a training contract
• The selection of training services is conducted in a manner that maximizes customer choice informed by the performance of relevant training providers, and coordinated to the extent possible with other sources of assistance (see WIOA §134(c)(3)).

*Note:* When possible, training services should be linked to in-demand employment opportunities in the workforce area or planning region, or in a geographic area in which the adult or dislocated worker is willing to commute or relocate.

The Trade Act of 1974, as amended, establishes certain time frames for decisions concerning suitable employment and referrals to training, establishing deadlines that affect a participant’s eligibility for Trade Readjustment Allowances. Boards must ensure that case managers maintain awareness of these deadlines.

*Note:* For details regarding documentation requirements, refer to the WIOA Eligibility Documentation Log at TWC’s WIOA guidance page.
B-300: Trade Adjustment Assistance Enrollment

B-301: Application Date
Boards must ensure that the date on which a Trade-certified worker first receives an explanation of TAA benefits and services at a Workforce Solutions Office is the date entered into TWIST TAA Application Date field. (Previously, the date entered into the Application Date field in the TWIST TAA Program Summary tab was the date an individual received the first reportable TAA service.) The Application Date is now a reportable item, and Boards must ensure correct documentation in the TAA Application Date field in TWIST.

The TAA Application Date field may not be changed once entered into TWIST. A change may be requested by sending an email message to TAA Technical Assistance at TAA@twc.state.tx.us. The TAA application date remains the same even if a participant received a previous explanation of TAA benefits or TAA qualifying services in TWIST.

B-302: Career Planning/Case Management
Boards must ensure that Workforce Solutions Office staff makes early intervention services a priority for TAA program participants.

Early intervention services include the following:
- Orientation
- Initial assessment of skills, language, education, aptitudes, and abilities
- Provision of labor market information, job search assistance, and financial management workshops

The Trade Adjustment Assistance Reauthorization Act of 2015 (TAARA 2015) restores the employment and career planning services previously available under the 2009 and 2011 Trade Acts.

Boards must be aware that Texas Workforce Solutions Office staff funded by TAA administrative funds or other programs for which a Trade-certified worker is eligible can provide career planning.

Boards must ensure the following:
- Employment and career planning services are available to trade-affected workers and trade-affected incumbent workers.
- Training request approvals are not delayed while determining eligibility for WIOA services
- Skills assessments evaluate whether a Trade-certified participant meets TAA training criteria or matches specific employment opportunities within the community
- Case managers provide Trade-certified participants the information and support necessary to help them achieve sustainable reemployment
- Career planning services are available to Trade-certified participants over the course of their participation in TAA
• If there are no immediate employment opportunities, a Reemployment and Training Plan (REP) is used to identify any skills gaps or job requirements, including remedial and prerequisite training that the Trade-certified participant requires to be job ready for a specific occupation.

Boards must ensure that career planning services include the following:
• Comprehensive assessment of skill levels and service needs through diagnostic testing, use of assessment tools, and in-depth interviewing and evaluation to identify employment barriers and appropriate employment goals
• Development of an individual REP to identify employment goals and objectives, and the appropriate training to achieve those goals and objectives
• Provision of information on available training in the local workforce development area (workforce area), determination of suitable training, and how to apply for such training
• Provision of information to adversely affected workers on applying for financial aid at institutions of higher education, and on asking for administrators’ discretion to use current year income data to determine the need for federal financial assistance under the Trade Act, Title IV
• Referral to short-term prevocational services, including development of learning, communications, and interviewing skills to prepare for employment or training
• Referral to job search and placement counseling
• Provision of labor market information, including job vacancies and projections, required job skills for occupations, local high-demand occupations, and earnings potential
• Referral to the WIOA dislocated worker program for support services, including child care, dependent care, transportation, and housing assistance, if necessary, to enable participation in training.

**B-302.a: Intake Overview**

Boards must be aware that the initial intake process collects information about the participant to determine the most effective approach to assist with reentry into the workforce. The more thorough the information collected at the beginning of the process, the better the foundation for coordination of services. Initial intake is an early opportunity to ensure that the participant is made fully aware of the following:
• The wages that are associated with available occupations in the local commuting area or an area of potential relocation
• Whether available occupations will meet the goal of 80 percent wage retention of the participant’s previous wage
• The training that is required for the worker to enter and successfully complete the training for appropriate occupations

Boards must ensure that Workforce Solutions Office staff does the following during a participant’s initial intake:
• Shares information on the local labor market, available jobs, wage information, and programs and services
• Completes appropriate forms
• Makes an initial decision about whether the participant possesses sufficient job skills
to find suitable employment, and, if participant does not possess sufficient suitable
job skills, explain the available training options

Note: If a participant possesses sufficient job skills to test the job market, training
may still be considered at a later date.

Boards must ensure that Workforce Solutions Office staff initiates the following activities
to help trade-affected customers:
• Complete the Explanation of Services form, which outlines potential program
services and benefits; documents that the customer has reviewed the services
available under TAA; and understands the Waiver/In Training deadline date and
training time frames
• Discuss and/or complete the Waiver of Training form, which protects potential future
benefits associated with TRA and HCTC
Note: Additional requirements for issuance of a waiver may be found in subsection B-
304: Waiver of the Training Requirement.
• Perform an assessment of knowledge, skills, and abilities
• Provide labor market information on previous, current, and future occupations,
including information on the following:
  ➢ Job vacancies
  ➢ Skills required for employment
  ➢ Expected occupational earnings related to the local commuting area or area of
    relocation
  ➢ Education and prospective training providers
• Ensure that the customer completed an application for TRA (form BS-100) by calling
the TRA Unit at (512) 463-2999 (option 1, option 2, and option 3)

B-302.b: Explanation of Services Form
The Explanation of Services form identifies the potential TAA program services and
benefits and acts as the bona fide application for training.

Boards must ensure that Workforce Solutions Office staff does the following:
• Ensures that the dislocated worker signs the form
• Retains it permanently in a local file

B-302.c: Initial Assessment
The preliminary assessment of knowledge, skills, and abilities helps identify TAA-
certified workers who possess marketable skills needed by local employers. It can also
identify TAA-certified workers who need additional services.

Boards must ensure that the initial assessment includes the following:
• Testing of skill levels in math, reading, and writing to determine grade-level
equivalencies. Skill level assessments may be conducted by the training provider to
ensure that the participant is capable of undertaking and completing TAA-approved
training.
• Evaluating aptitudes and abilities
• Identifying transferable skills such as computer literacy, problem solving, time management, and organization
• Assessing English language proficiency
• Identifying knowledge of foreign languages that may help an employer
• Assessing support service needs, such as child care or transportation
• Evaluating the need for referral to community resources
• Identifying labor market information for current and the proposed occupations

Note: Every Board must have access to assessment tools designed for LEP individuals.

B-303: Affected Workers from Other States
Trade-affected workers from other states will continue to relocate to Texas. Boards must be aware that TAA is a federal program and trade-affected workers have the right to seek TAA services in any state they choose.

Boards must ensure the following:
• Staff contacts TWC’s TAA Technical Assistance at TAA@twc.state.tx.us immediately when an individual’s TAA program eligibility must be determined. An email is sent including customer TWIST ID and identifying information for the trade-certified company.
• If a waiver of the training requirement is granted, staff sends a copy of the waiver to TWC’s TAA Technical Assistance at TAA@twc.state.tx.us.
• A training program for a Trade-certified worker from another state must receive approval from the other state—routed through TWC’s TAA Technical Assistance—before the individual begins training.

B-304: Waiver of the Training Requirement
To be eligible to receive TRA payments, a TAA-certified worker must be enrolled in TAA-approved training or have a waiver of the training requirement by the waiver/in-training deadline date. A waiver can be issued for the basic TRA period only.

Boards must be aware that TAARA 2015 reinstates the waiver/in-training deadline date to the 26/26 rule. Boards must ensure that an adversely affected worker covered under TAARA 2015 is enrolled in TAA-approved training no later than the worker’s waiver/in-training deadline date, which is the later of the following:
• 26 weeks from the date of separation
• 26 weeks from the date of petition certification
• 60 days from date of notification

Boards must ensure that merit staff is aware of the customer waiver/in-training deadline date and processes data entry of waivers in a timely manner, so that within 48 hours of the date a waiver is requested staff has done one of the following:
• Approved the waiver and entered the information into TWIST
• Recommended the waiver for denial to the state office, TAA Technical Assistance, at TAA@twc.state.tx.us
Waivers must be tailored to a customer’s specific circumstances within the applicable waiver criteria. Waivers cannot be uniformly issued for a 26-week period; however, a waiver may be issued initially for a maximum 26-week period if the circumstances dictate. Waivers may be extended for longer than 26 weeks, but this requires state office approval.

Note: Waivers cannot exceed the basic TRA time period. A note reflecting the BTRA end date will be entered by the TRA unit. If this note is missing local area staff must contact the State TAA Technical Assistance unit for a conditional waiver time-period.

Boards must ensure that Workforce Solutions Office staff does the following:

- Reviews each waiver at least every 30 days to ensure that the reason for approving the waiver remains valid
- Documents the review in TWIST Counselor Notes
- If there is no longer a valid reason, takes the appropriate steps as set forth in B-304.b: Waiver Review

Boards must ensure that if a participant fails to satisfy the 30-day review, and efforts to contact the participant are unsuccessful, staff documents the lack of contact in TWIST Counselor Notes.

**B-304.a: Reasons for Training Waiver**

Boards must ensure that Workforce Solutions Office staff performs the following actions before issuing a waiver of training:

- Assesses the trade-affected worker’s skills and circumstances
- Assesses the labor markets where the worker is willing to work
- Completes the first two sections of the worker’s REP-1, TAA Reemployment and Training Plan; or REP-1S, TAA Reemployment and Training Plan (Spanish), available on the TWC intranet.

Boards must be aware that only the following three reasons are acceptable reasons to grant a waiver of the training requirement under TAARA 2015:

- Training Not Available—Approved TAA training is not reasonably available to the worker, no training that is suitable for the worker is available at reasonable cost, or no training funds are available in the state. Boards must ensure that this waiver is rarely used, as there are training facilities and programs available to trade-affected workers throughout the state, and training funds are currently available. An example of when a Training Not Available waiver would be approved is a situation in which a REP had been fully formulated but denied, and there was not a reasonable ability to reformulate an approvable plan before the waiver/in-training deadline date. Boards must ensure that the circumstances that lead to granting a Training Not Available waiver are detailed in TWIST Counselor Notes and submitted to TWC TAA Technical Assistance for review and determination.
- Health—The worker is unable to participate in training for health reasons. This waiver does not exempt the participant from availability for work, active work search, or refusal to accept work requirements of the federal or state UI laws. Boards must ensure that TWIST Counselor Notes reflect that a Health waiver has been issued and
that this entry retains the customer’s privacy (i.e., the health specifics are not provided).

- **Enrollment Unavailable**—The first available enrollment date for the approved training of the worker is beyond his or her waiver/in-training deadline date, but before the end of his or her Basic TRA eligibility period. To grant an Enrollment Unavailable waiver, Boards must ensure that the training occupation, institutions, and start date are identified and documented in TWIST Counselor Notes. A waiver for this reason may be issued for no more than one week following the start date.

In some circumstances, a worker who has identified a training occupation can have options to enroll at more than one institution to pursue the desired training program. Boards must be aware that the worker is not required to choose the specific training institution at the time of waiver issuance. Rather, the worker is required to choose a training occupation and identify a training institution(s) where an enrollment date can be reasonably projected to occur before the end of the worker’s Basic TRA eligibility period.

Boards must ensure that state merit staff is aware of the customer waiver/in-training deadline date and processes data entry of waivers in a timely manner. Waivers must be approved and entered into TWIST or recommended for denial to the state office within 48 hours of the date requested.

**B-304.b: Waiver Review**

Boards must ensure that Workforce Solutions Office staff apprises customers of their responsibility to comply with the requirement that they contact their case manager every 30 days to review the status of a waiver.

Boards must ensure that, after issuance, case managers document customer compliance with the 30-day waiver-review requirement. The review, which must be accomplished by state merit staff, ensures that the criteria used to grant the waiver still apply and the waiver period is appropriate. Waiver reviews will likely yield one of the following results and require the specified actions:

- **Waiver reason continues to apply**—A notation must be made in TWIST Counselor Notes supporting the review.
- **Waiver reason no longer applies, and enrollment is possible and scheduled**—Since this revocation will not result in the denial of TAA or TRA benefits, the waiver can be revoked by local state merit staff without the issuance of a formal decision through TWC’s TAA Technical Assistance office. To ensure the customer’s continued TRA eligibility, the customer must be enrolled in training on the calendar day following the waiver revocation by making an entry into TWIST’s TAA Program Detail, Enrolled in Training Date field.
- **Waiver reason no longer applies, and enrollment is not possible**—These circumstances will possibly lead to a denial of TRA benefits; therefore, a formal determination is required. In these instances, a customer is immediately placed into
TRA non-pay status and must be enrolled in TAA-approved training within 30 days, or the customer will permanently lose TRA eligibility.

- **Waiver Review: Failure to Comply**—Failure to comply with a waiver review is a TRA eligibility issue and will affect the customer’s TRA support. Staff must enter this failure to comply into TWIST’s Counselor Notes. However, failure to comply with a 30-day review is adjudicated through the unemployment insurance/TRA system, and does not represent a basis for revocation of a waiver.

**Note:** In certain situations, local merit staff may not revoke the waiver and the waiver will expire. If a waiver expires or is revoked, the trade-affected worker must be enrolled in TAA-approved training within 30 days.

**B-305: Limited English Proficiency**

Boards must be aware that individuals with LEP are defined as individuals who meet one or more of the following characteristics:

- Does not speak English as primary language
- Has limited ability to read, speak, write, or understand English
- Native language is not English
- Lives in a family or community environment in which a language other than English is dominant

Boards must ensure that Workforce Solutions Office staff takes reasonable steps to ensure that LEP customers have access to translators and language-appropriate material describing programs, services, and information.

Boards also must ensure that Workforce Solutions Office staff provides LEP workers with career planning services throughout TAA participation, with particular emphasis on provision of services at the training selection stage, in order to ensure that LEP participants meet their TAA training goals. Case managers must consider the following when assisting LEP workers in selecting training programs:

- Thorough exploration of the entire range of possible in-demand or target occupations is essential, with particular attention paid to the transferable skills and long-term employment goals of the worker.
- On-the-job training (OJT) can be supplemented with remedial education to enable LEP workers to participate in OJT as the preferred form of training.
- Dual-language training programs have proved more effective than other forms of classroom training for LEP workers; therefore, encourage participants to derive as much of their classroom training as possible through Board-approved, dual-language training opportunities.
- Enrolling LEP workers in any form of stand-alone remedial education (including English as a Second Language, GED, Adult Education and Literacy, and basic computer skills courses) is not allowed, unless either of the following applies:
  - Assessment indicates that the worker only needs remedial education, and no vocational skills, to become job ready in an appropriate high-demand or target occupation.
  - The stand-alone remedial education is of limited duration and is approved in conjunction with dual-language or standard vocational training, and the case manager reasonably
expects the worker to complete both the remedial and vocational parts and be job ready within the time allowed under TAA.

**B-306: Suitable Employment**

Boards must be aware that, based on assessment results, Workforce Solutions Office staff can conclude that a Trade-certified worker has the skills for “suitable employment.”

During the initial assessment of participants, the term “suitable employment” is related to the decision to approve training. If no suitable employment is identified and training is required, the goal of such training is to ensure that, where possible, the occupation for which the participant is being trained meets the goal of 80 percent wage replacement of the participant’s previous wage. Under the Trade Act, suitable employment means employment that meets both of the following criteria:

- Work of an equal or higher skill level
- Pay of at least 80 percent of the average weekly wage of the trade-affected job

Boards must ensure that Workforce Solutions Office staff documents whether or not suitable employment is identified for the trade-affected worker in TWIST Counselor Notes. If suitable employment is not available, the worker continues with TAA services.

Boards must be aware that a participant can decide to enroll in training that does not meet the 80 percent wage replacement goal. Boards must ensure that if a participant decides to enroll in such training, Workforce Solutions Office staff documents the participant’s decision in TWIST Counselor Notes and that the REP reflects the expected occupational wage.

**B-307: Labor Market Information**

Boards must ensure that Workforce Solutions Office staff is versed in the use of Texas Labor Market and Career Information (LMCI) to analyze local labor markets to do the following:

- Determine employer needs
- Determine emerging, target, and in-demand occupations
- Identify employment opportunities that will allow participants to meet the goal of 80 percent wage replacement of the wages of their Trade-affected employment
- Identify employer-based training opportunities, such as OJT or customized training

Labor market information (LMI) analysis and the job seeker’s job search experience are important factors in the development of the REP.

*Note:* Staff may use other available labor market information tools from the US Department of Labor or tools unique to the workforce area.

**B-307.a: Labor Market and Career Information**

LMCI provides the following six internet programs containing useful data and statistics:

- LMI—provides time series labor market data and inquiry capabilities for the labor force, employment/unemployment estimates, industry and occupational projections, and occupational wage data.
- Labor Analysis—provides insight into the labor supply and labor demand.
• Wages—provides wages by workforce area, Metropolitan Statistical Area, and state employment projections.
• AutoCoder—matches job titles or descriptions with Standard Occupation Classification codes.
• Skills to Work—translates military experience and training into skill states that may be used to develop a résumé
• Monthly Help Wanted Online—provides real-time LMI and employment trends for jobs in the state.

For more information, see Texas Labor Market Information.²

B-308: Moving to Basic Individualized Services

Boards must ensure that after initial assessment, background information, labor market information, and identification of whether suitable employment is available, Workforce Solutions Office staff moves on to one of the following steps for the TAA customer:
• Job search
• Referral to training in an occupation that will allow the participant to meet the goal of earning 80 percent of his or her previous wage, to the maximum extent possible

However, Boards must ensure that the participant is not denied training if the only factor is that the 80 percent wage retention goal cannot be met. The customer must be informed of the entry-level wage before receiving training approval.

² https://texaslmi.com/
C-100: Eligibility Determination

C-101: Certified Petition
When the US Department of Labor (DOL) completes its investigation of a petition, it certifies or denies the petition and e-mails the determination to the Texas Workforce Commission (TWC). When TWC receives a certified petition, staff performs the following actions:

- Notifies the appropriate Local Workforce Development Board (Board)
- Updates the Trade Adjustment Assistance (TAA) petition status in The Workforce Information System of Texas (TWIST)
- Requests a list of all workers under this petition from the employer, and enters the list into TWIST
- Sends a letter of potential eligibility to each worker, with instructions to contact a Workforce Solutions Office

Boards must be aware that receipt of a letter does not mean a worker is Trade-certified.

C-102: TWIST Petition Information
Boards must be aware of the following:

- TWC requests certain information from an employer filing a Trade petition and makes an eligibility determination based on the responses.
- TWC staff enters the employer’s responses into TWIST. Workforce Solutions Office staff can determine whether a dislocated worker is Trade-certified in TWIST, at the Customer Information>Program Detail>TAA>Eligibility tab. If the status is “yes” for all criteria for a dislocated worker to be Trade-certified and eligible to receive Trade benefits, the dislocated worker is Trade-certified.
- If the dislocated worker disagrees with the eligibility determination, the worker may file an appeal.
C-200: Reemployment Services

C-201: Coenrollment
Coenrollment in Workforce Innovation and Opportunity Act (WIOA) and Trade Adjustment Assistance (TAA) programs allows the Trade-certified worker to fully benefit from WIOA-funded career planning and support services. If a Trade-certified worker is trained with TAA program funds and placed in employment using WIOA resources, the dislocated worker program receives credit for the successful outcome.

Boards must be aware of the following:
- Trade-certified workers are dislocated workers.
- All dislocated workers receive career services, including Rapid Response services and initial assessments.
- The overall goal is to provide early intervention services that lead to rapid reemployment where the participant can expect an 80 percent wage replacement based on the prior employment.
- All dislocated workers covered under a filed petition must receive Rapid Response services and Employment Service (ES) as part of career services, including a referral, when appropriate, to vocational skills or dual-language training when no suitable employment is available.

Boards must be aware that WIOA- and TAA-funded coenrollment services include the following:
- WIOA-funded:
  - Rapid Response and Career Services Assessment—Initial and comprehensive career counseling, including a review of high-demand occupations that address the goal of 80 percent wage retention
  - Case management
  - Support services
  - Job development and placement
  - Follow-up
- TAA-funded:
  - Training (vocational/occupational or dual language)
  - On-the-job training (OJT), apprenticeship, or customized training
  - Trade Readjustment Allowances (TRA)
  - Health Coverage Tax Credit (HCTC)
  - Reemployment Trade Adjustment Assistance (RTAA)

Boards must ensure that if a rapid reemployment is not possible, Workforce Solutions Office staff continues with a comprehensive assessment, develops a Reemployment and Training Plan (REP), and refers the dislocated worker to training or OJT, if appropriate.

C-202: Reemployment and Training Plan
The REP allows Workforce Solutions Office staff to work in partnership with a Trade-certified worker to identify an occupation that may meet the 80 percent wage replacement goal.
Boards must ensure that REP's meet the following standards:

- Are complete and thorough
- Outline a reasonable path to reemployment
- Include labor market information on selected or target and in-demand occupations, wage information by occupation, and length of training
- Identify barriers to the selected occupation, and clearly establish how training will remove those barriers
- Ensure that if the participant selects an occupation that will not meet the 80 percent wage replacement goal, both TWIST Counselor Notes and REP reflect the participant’s decision

Boards must also ensure the following:

- Participants are given a wide range of training choices to ensure that they can make an informed decision about their occupational goals
- In selecting an occupation, the focus is on local employers’ job requirements
- Training elements in the REP are connected to the specific, selected occupation

**C-203: Comprehensive Assessment**

Comprehensive, specialized assessments are necessary to determine the range of realistic occupations for each participant who needs TAA training. The purpose of the comprehensive assessment is to ensure the following for the participant:

- Informed choice
- Possession of the skills and qualifications to participate successfully in selected training services
- Understanding of the training needs and the time commitment involved in the decision
- Coordination with the assessment specialist at early stage of the process
- Detailed testing that assesses more comprehensively than Rapid Response or core services, which may include the following:
  - A battery of tests to identify basic and transferable skills
  - Interest inventories
  - Employer-suggested assessment instruments

Boards must ensure that Workforce Solutions Office staff considers employer-based training, including customized training or OJT, as options. Employer-based training promotes employment placement, retention, higher earnings, and credential attainment. Job developers or the Board’s Business Services Unit (BSU) can provide information regarding employer requirements.

Boards must ensure that Workforce Solutions Office staff conducts in-depth interviews and evaluations during comprehensive assessments. This provides an opportunity for customer input and career counselor feedback, which helps determine what training programs may be successful and builds the dislocated worker’s commitment and desire to follow the REP.

Boards must ensure that Workforce Solutions Office staff uses assessment tools appropriate for limited English proficiency (LEP) customers as well as other dislocated workers. Assessment tools include, but are not limited to, the following:
• Test of Adult Basic Education (TABE)
• Comprehensive Adult Student Assessment System (CASAS)
• Career Occupational Preference System (COPS)
• Other skill assessment tools and interest inventories
• Training provider assessments
C-300: Training

C-301: Training Criteria

Local Workforce Development Boards (Boards) must be aware of the following:

- The goal of TAA is to ensure that Trade-certified workers become reemployed as soon as possible. However, if no employment opportunities meet the 80 percent wage replacement goal, training may be required.

- There is no cap on the cost of TAA-funded training for either an individual or for a particular occupation. The term “reasonable cost,” as used in the criteria for selecting approvable vocational skills or dual-language training, means reasonable as compared with the cost of similar training in the local workforce development area (workforce area). It also means that the cost of training is the same as the cost for nonsubsidized students. Training is similar for cost-comparison purposes to the extent that it prepares the participant for a similar occupation with similar wage and employment prospects, does so in similar time, and is similar in quality. Reasonable cost comparisons must be made over the entire course of training.

  Example: It would not be an appropriate assessment of reasonable cost to compare the costs of an English as a Second Language (ESL) program versus a dual-language training program. It would be appropriate to compare the cost of a dual-language program to the total cost of a program comprising stand-alone ESL followed by stand-alone vocational training, but only if the two programs were similar in quality and in the time required to complete.

- It is assumed that dual-language training will cost more than standard vocational skills training. Boards are encouraged to expand the opportunities for dual-language training in their workforce areas by encouraging training providers to develop integrated curriculum and by taking appropriate actions to put the training on the Statewide List of Eligible Training Providers.

- Failure to meet the reasonable cost standard cannot be the only basis for the denial of training, and exceeding it is not in itself evidence that the cost of training is unreasonable. Although the Workforce Innovation and Opportunity Act (WIOA) allows a participant to pay for part of the cost of training, Trade regulation does not. To be approved under the TAA program, the entire required cost of a course of training must be subsidized.

Boards must ensure the following:

- Workforce Solutions Office staff assists participants in selecting approvable training that meets all of the TAA approval criteria and the three additional considerations.

- When training plans do not meet the approval criteria, Workforce Solutions Office staff must recommend denial to TWC’s TAA Technical Assistance.

- An REP has been fully developed before a training referral is approved, with a hard copy signed by the customer kept in the customer’s files.

Boards must be aware that the TAA allows adversely affected workers the following options:

- To request and receive approval for TAA training not limited to WIOA and the Board’s Targeted Occupations List

- Participation in TAA training up to the maximum allowable weeks under a certified petition
• Participation in part-time training under petition 70,000 and above, if the training meets all TAA approval criteria (Boards must be aware that adversely affected workers will not receive TRA while participating in part-time training.)

Boards must ensure that before Workforce Solutions Office staff approves any type of training, the criteria below have been met and documented to that effect. Workforce Solutions staff may use assessment results, evaluation information, and interview outcomes to determine whether the following six criteria have been met:
• No suitable employment is available.
• The participant will potentially benefit from the training based on a comprehensive assessment of the participant’s knowledge, skills, and abilities.
• A reasonable expectation of employment following completion of the training exists based Labor Market Information (LMI), or a bona fide job offer.
• Training is reasonably available to the participant from a private or public school regulated by a state agency or an accredited board. First consideration is given to training providers within the commuting area.
• The participant is qualified to undertake and complete the training based on a comprehensive assessment of his or her knowledge, skills, abilities, and interest. The participant must have financial resources to complete training if TRA is not available.
• Training is available for the selected occupation at the lowest and most reasonable cost based on a review of similar training in the workforce area.

Note: TAA continues to require Systemic Alien Verification for Entitlements in reference to approval of training for “reasonable expectation of employment.” Boards must be aware that an individual must have satisfactory immigration status for the duration of the training and be available for work for at least one day after the completion of training.

Boards must ensure that case managers adhere to the following:
• First consideration must be given to appropriate training available within the local commuting area.
• When considering a training program outside the local commuting area, the cost of necessary travel and subsistence must be considered as part of the cost of training when calculating the lowest-cost training available.

Boards must ensure the following:
• Individual Trade-certified participants are allowed only one training program each under any one Trade certification.
• The training program must include all training required to afford the individual complete job readiness in a specific occupation. (One training program may require more than one training component—for example, English as a Second Language (ESL), Adult Education and Literacy (AEL), or GED classes—and may require training at more than one institution. If it is determined after a training program begins that the training will not afford the Trade-certified participant complete job readiness, the program can be amended.)
• A training program that will last longer than the Trade-certified participant’s remaining TRA eligibility period can be approved only if the individual demonstrates a financial ability to complete the training after TRA eligibility is exhausted.
Before approving a training program under TAA, the TAA REP must be completed and the REP must ensure that the Trade-certified participant will be entirely job ready at the completion of any approved training program.

**C-302: Adversely Affected Incumbent Workers**

Adversely affected incumbent workers are individuals in a group of Trade-certified workers covered by a certification petition with a number greater than 70,000, who have not been totally or partially separated from adversely affected employment, but who are identified by the employer as threatened with total or partial separation.

Boards must ensure the following:
- Requests for TAA training from adversely affected incumbent workers are considered for approval.
- Such requests meet all TAA training approval criteria before being approved.
- If the threat of layoff is removed, the training program is terminated.

Boards also must be aware that under the Trade Act, incumbent workers qualify for most TAA training benefits. However, incumbent workers cannot participate in OJT or customized training unless the training is for a position other than the worker’s current position in the adversely affected employment.

**C-303: Reasonable Cost of Training Standard**

Before approval under TAA, training must meet all TAA training approval criteria, including that the cost of training be reasonable. Under the Trade and Globalization Adjustment Assistance Act of 2009, DOL directed states to establish a statewide reasonable cost of training standard.

Boards must be aware of the following:
- The Texas reasonable cost of training standard is $25,000.
- The standard is calculated as twice the average statewide cost of TAA training, based on training that was approved during the previous federal fiscal year.
- The reasonable cost of training standard includes the following:
  - All training required to make the TAA participant job ready in a specific occupation
  - All required travel and subsistence

In determining the reasonable cost of training, Boards may consider the use of other public or private funds to lower the TAA program cost, including the following:
- Scholarships
- Employer financing
- Other non-personal funds that the Trade-certified participant does not have to repay

However, Boards must be aware that Trade-certified workers cannot be required to use other public or private funds to lower the cost of training as a condition of training approval. If a Trade-certified worker volunteers to use other grant funds to supplement TAA training funds when the cost of training is otherwise not reasonable (and all other training approval criteria are met), the training program will be approved. Approval must go to the lowest-cost training option available for the occupation.
The cost of a TAA-approved training program must include the following:

- Tuition
- Books
- Tools and supplies required to be purchased by all students for the training program
  - File must contain supporting documents (that is, course syllabus and school catalog)
  - Tools and supplies that are purchased for a specific program and are purchased to assist
    the worker in completing TAA-approved training. TAA does not recoup tools for training
    failures, terminations of training, and if an individual quits training
  - A $50 general supply fee that may be used per semester for paper, pens, pencils, folders,
    notebooks, and the like
- Academic fees
- Travel and subsistence expenses when the training location is outside the local commuting
  area
- Any certification test or license required for the employment

Boards must be aware that the reasonable cost standard is not a cost cap. TAA training must
meet the lowest-cost training approval criteria. If the estimated cost of the lowest-cost training
exceeds the reasonable cost standard, Boards must submit a justification for the higher cost to
TWC’s TAA Technical Assistance by one of the following methods:

- Fax to (512) 936-0331
- Email to TAA@twc.state.tx.us

Boards also must be aware that a TAA training request will not be approved until the
justification has been approved.

Boards must ensure that there is method for paying TAA-approved training providers regardless
of whether the providers are on the Statewide List of Eligible Training Providers.

C-304: Statewide Commuting Area

Boards must be aware that the “local commuting area” is defined as 25 miles one way. Boards
will be notified if the state adopts a new commuting distance.

Boards must ensure that Workforce Solutions Office staff uses the following metrics:

- The shortest one-way distance from residence to place of training to determine whether the
  travel distance is within the local commuting area
- The local commuting area when determining whether travel and/or subsistence costs are to
  be included in the cost of TAA training

If the distance from residence to training site exceeds 25 miles one way, Boards must ensure that
travel and/or subsistence costs are included in the cost of TAA training and that the cost is based
on the entire travel distance, not just the distance over 25 miles.

C-305: Transportation and Subsistence Costs for Training

Boards must ensure the following:
• When the shortest distance from a Trade-certified participant’s residence to the site of training is greater than the local commuting distance, transportation and subsistence costs are provided as part of the overall TAA cost of approved training.

• Transportation and subsistence costs are the lesser of:
  ➢ the actual cost (room and board); or
  ➢ 50 percent of the federal per diem rate for the area in which training takes place.

• The actual mileage from a Trade-certified participant’s residence to the training facility is verified

• Transportation allowances provided for daily commuting do not exceed the amount payable using the alternative subsistence calculation in the Trade Adjustment Assistance Subsistence Calculation Worksheet on TWC’s intranet

• If a Trade-certified participant is staying at a training facility outside the local commuting area, only one round-trip payment is provided.

• Federal per diem rates are verified using the US General Services Administration Per Diem Rates. If transportation and subsistence allowances are included in the TAA training program the following must apply:
  ➢ An application for subsistence is completed and retained in the applicant’s file.
  ➢ Boards make payments at the end of a training week, except for at the beginning of training.
  ➢ Trade-certified participants submit attendance before receiving transportation and subsistence assistance.
  ➢ Payments are not to be made for any unexcused absences.
  ➢ Boards must assist Trade-certified participants with the initial payment when it is necessary in order for the participant to begin training.

• If training outside of the normal commuting area makes the cost of training unreasonable, a request for denial of training is submitted to TWC’s TAA Technical Assistance at TAA@twc.state.tx.us.

C-306: Support Services
Boards must be aware that TAA program participants often need support services until they get a job and start receiving paychecks. Support services help Trade-certified workers enrolled in training accomplish the following:
• Remain in the program
• Focus on the coursework
• Stay on task
• Complete components successfully and in accordance with their REP

Boards must ensure the following:
• TAA participants who need support services to complete their educational or training activities are coenrolled in WIOA dislocated worker services.
• Workforce Solutions Office staff continues WIOA-funded support services after the participant successfully completes the training, as appropriate and as Board policy allows.
• TWIST service code 4–TWC Programs Supported by WIOA is used only for TAA participants who are enrolled in TAA-funded educational or training activities not approved
by WIOA and are unable to complete their training without the provision of WIOA worker-funded support services.

- The need for support services is fully assessed and the determination of their need included in the REP.

Note: Boards must use service code 4–TWC Programs Supported by WIOA when support services are provided to a coenrolled Dislocated Worker and TAA participant. This service code is used when the participant is in TAA-approved training, but the training is not on ETPS and another WIA training service is not appropriate.

Boards must be aware that support services can include payment or reimbursement for the following:

- Child care services governed by TWC’s Chapter 809 Child Care Services rules
- Transportation services for participating workers

Boards must be aware that work, training, or education-related items that are not related directly to training and are not authorized under the Trade Act, but can be funded under other programs, including, but not limited to, WIOA, when the customer is eligible under those programs.

**C-307: Appropriate for Training?**

Boards must ensure that if the completed REP indicates that the participant needs training to return to employment, Workforce Solutions Office staff and the participant determine the appropriate training.

Upon completion, the proposed training program must provide all the skills and requirements that are needed for the worker to be job ready. For example, if the occupation for the proposed training requires a license, then the training program must include obtaining the license.

Additional training approval considerations include the following:

- Training must be full-time for the participant to receive TRA.
- ESL, AEL, or GED programs must be before or with vocational training.
- Full time is as defined by the training provider or by a full-time determination from the TAA state office.
- Training must be conducted within the United States.
C-400: Types of Training

Boards must ensure that participants are fully informed of their training options, including training for occupations on the in-demand and target occupations lists.

C-401: Remedial Training

Remedial training can include the following:

- AEL
- ESL
- GED preparation

Boards must ensure the following:

- TAA training programs include all training necessary for a trade-affected worker to be completely job ready for a specific occupation.
- All TAA-approved training leads to a selected occupational goal and can be completed within the required TAA time frames.

Boards must be aware that TAA-approved training can include AEL, ESL, and GED classes if the trade-affected worker requires this training before and/or concurrently with occupational vocational training. Boards must ensure that all necessary training, including remedial and vocational, is reflected in an individual’s REP.

Boards must be aware that remedial training can only be completed without a corresponding training service if a trade-affected worker has all the required skill sets for the selected occupation except a component of remedial training. When that is the case, Boards must ensure the following:

- Documentation exists showing the trade-affected worker has all other required skills.
- The documentation is entered into TWIST Counselor Notes.
- The trade-affected worker will be completely job ready for the selected occupation after completion of the remedial training as a component service of the REP.

For remedial training, Boards must ensure that Workforce Solutions Office staff does the following:

- Enters the total weeks of remedial education into the TWIST TAA Program Detail, Program Summary tab, Remedial Weeks in Training field
- Uses corresponding TWIST service code 54–GED, 44–ESL, or 2–ABE for Adult Education and Literacy training, or TWIST sub-fund code 50–Integrated Remedial using fund code 121–Trade Adjustment Act or fund code 136–TAA/Other
- Enters “Remedial Education” into TWIST Counselor Notes with the time frame, course name, and total number of weeks of remedial training
- Uses TWIST sub-fund code 50–Integrated Remedial when remedial education coursework is offered at the training institution concurrently with occupational training
If remedial training is provided at no cost, or funded by private sources or governmental funds other than TAA funds, Boards must ensure that fund code 136-TAA/Other is entered into TWIST.

As part of DOL’s TAA reporting requirements, Boards must ensure that Workforce Solutions Office staff enters the Occupational Information Network (O*NET) code that appropriately reflects the approved TAA training into TWIST TAA Program Detail and Service Tracking fields.

**C-402: Prerequisite Education**

DOL defines “prerequisites” as “coursework that a training institution requires for entry into the approved training program.” Boards must ensure that Workforce Solutions Office staff includes prerequisite education in the REP and applies the definition, as follows:

- Under TAA, a course is a prerequisite if it is required before a student can be accepted into a program. For example, if a nursing department requires a specific biology course prior to admitting a student into the program, the biology course is classified as a prerequisite.
- Under TAA, a course is a “sequential course” if it is a specific course that is listed as a prerequisite for another course. For example, if a training institution lists Accounting 101 as a prerequisite to Accounting 102, the courses are classified as sequential courses, not prerequisites.

Boards must ensure that Workforce Solutions Office staff does the following:

- Enters the total weeks of prerequisite education into the TWIST Program Detail, Program Summary tab, Remedial Weeks in Training field.
- Uses training service code 190–Prerequisite Training for periods of time when prerequisite coursework is being accomplished.
- Enters “Prerequisite Education” into TWIST Counselor Notes with time frame, course name, and total number of weeks of prerequisite training.

**C-403: Distance Learning**

For self-paced distance learning, Boards must ensure the following:

- The Board and Workforce Solutions Office staff works with distance learning providers to understand a specific program’s participation requirements and benchmarks.
- Distance learning providers inform the Board of student progress, which is critical in establishing benchmarks and timelines to gauge satisfactory academic progress.

Boards must ensure that Workforce Solutions Office staff uses TWIST sub-fund code 48–Distance Learning when distance learning is used exclusively for an entire course of study. Boards must ensure that a final degree or certificate earned through a distance learning program is equivalent to the same degree or certificate earned through a campus-based program or at an institutional training location.

**C-404: Direct Assessment Training**

Boards must be aware of the following:
• Direct assessment programs are instructional programs that use direct assessment rather than credit hours or clock hours to measure student learning. Many information technology certification programs use this method.
• If direct assessment training is self-paced, Boards must understand a specific program’s participation requirements to ensure that training benchmarks and time frames are properly established.
• Direct assessment training can be conducted through distance learning or through a campus-based program.
• Assessments can take the form of tests, embedded assignments, course activities, or competence interviews.
• Assessments must be passed successfully prior to progressing to the next training module.

C-405: Short-term Prevocational Skills Training
Short-term prevocational skills training prepares individuals for suitable employment or appropriate training referrals. It is generally less than six months in duration.

Boards must ensure that prevocational skills training is tied to specific targeted or high-demand occupational training. For example, a short-term computer literacy class can be a necessary short-term prevocational skills training for various occupations.

C-406: Vocational or Occupational Skills Training
Vocational or occupational skills training is for skilled workers such as plumbers, electricians, auto mechanics, air conditioning and heating repair persons, bookkeepers, and office assistants.

Boards must ensure that Workforce Solutions Office staff uses the Board’s list of targeted or high-demand occupations when helping skilled workers with their REPs.

C-407: Dual-Language Training
Dual-language training, also known as contextual learning or integrated vocational skills training, provides necessary vocational skills and remedial education together in a single integrated curriculum. This training blends English as a Second Language classes and other training with vocational skills training, as appropriate, to limited English proficiency individuals.

C-408: On-the-Job Training
OJT is conducted by an employer and results in full-time employment on completion of training. OJT provides the knowledge and skills essential for job performance in a specific occupation. The duration of the training is based on the time required for the individual to become proficient in the occupation.

Boards must ensure that employers commit to hiring an individual who successfully completes OJT.

Under OJT, the Board may reimburse employers a percentage of the trainee’s wage rate based on the Board’s sliding fee scale.

C-409: Customized Training
Customized training is designed to meet the special requirements of an employer or group of employers. As with OJT, the employer must commit to hiring an individual who successfully completes the training. Customized training for Trade-certified participants must meet the same criteria used for WIOA.

Boards must ensure that customized training is developed with a specific employer and that the employer plays a major role in the development of the training or curriculum so that the training addresses specific employer-identified skills.
**C-500 Tracking Participant Progress**

**C-501: Follow-Up Services During and After Training**

Boards must ensure that after a Trade Adjustment Assistance (TAA) program participant begins training activities, Workforce Solutions Office staff follows up with the participant on a regular basis. A good time to assess progress is when the participant comes to the Workforce Solutions Office to sign for support service items (for example, bus tokens and gas vouchers).

Workforce Solutions Office staff may use the following criteria to evaluate a participant’s progress in training:
- Is the participant progressing in his or her class work?
- How are the participant’s grades?
- Does the participant need other support services?
- What else can Workforce Solutions Office staff do to assist the participant?

**C-502: Participation**

Boards must be aware that if a training participant is not meeting all of a training institution’s requirements, the participant is considered to have ceased participation, which can affect the participant’s TRA for that period.

Boards must ensure that for each occurrence of failure to meet all of a training institution’s requirements Workforce Solutions Office staff does the following:
- Enters the failure into the participant’s TWIST Counselor Notes
- Issues a benchmark warning to the participant

Boards must be aware of the following:
- Under TAA, any degree, certificate, or course completion necessary to make the worker fully job ready must be attainable within the following maximum duration allowed under the Trade law in effect at the time of the participant’s certification:
  - Trade Act of 1974, including the North American Free Trade Agreement and TAA, petitions below 50,000: 104 weeks maximum
  - Trade Act of 2002, petitions between 50,000 and 69,999: 130 weeks maximum
  - Trade Act of 2009, petitions between 70,000 and 79,999: 156 weeks maximum
  - Trade Act of 2011, petitions between 85,000 and 89,999: 130 weeks maximum
  - Trade Act of 2015, petitions above 90,000: 130 weeks maximum
- Remedial or prerequisite education in a TAA participant’s REP counts toward the maximum duration of TAA training, which cannot be extended to include it and thus is not affected, but it can affect the duration of TRA. Boards must ensure that Workforce Solutions Office staff directs specific inquiries regarding TRA to TAA Technical Assistance at (512) 463-2999 (select option 1, followed by option 2, then option 3).
- If it is determined at any point that a participant cannot fully achieve the entire REP within the stipulated maximum time frame, the REP no longer meets TAA approval requirements. Boards must ensure Workforce Solutions Office staff modifies the REP to an alternate, achievable occupational goal or recommends the REP for termination at the end of the current academic term.
C-503: Full-Time and Part-Time Student Status

Boards must be aware that full- or part-time student enrollment status can affect TAA training approval and that under TAA regulations, the following applies:

- Part-time enrollment status is not permissible for petitions below 70,000.
- Petitions of 70,000 and above can be enrolled in part-time training, but do not receive TRA.

Under TAA regulations, full- or part-time status is based on the training provider’s standards. “The hours in a day and days in a week of attendance in training shall be full-time in accordance with established hours and days of training of the training provider.” (20 Code of Federal Regulations §617.22(f)(4))

Boards must be aware that the training provider determines full- or part-time status based on the following:

- Universities, colleges, and community colleges typically participate in the financial assistance programs established under Title IV of the Higher Education Act. If a TAA customer is participating in Title IV–eligible training, the training provider’s determination of full- or part-time enrollment status is made according to the institution’s Title IV standards.
- Generally, full-time status under Title IV requires one of the following:
  - 12 semester hours or 12 quarter hours per undergraduate academic term
  - Nine credit hours per academic term for graduate students in an educational program using a semester, trimester, or quarter system
- Full- or part-time determinations made by non–Title IV training providers are accepted under TAA/TRA.

Boards must ensure that when a Title IV institution provides a full-time determination at less than 12 credit hours for undergraduate work, or less than nine credit hours for graduate work, the finding is sent to TWC’s TAA coordinator at TAA@twc.state.tx.us for a final determination. If a non–Title IV training provider does not issue a determination, Boards must ensure that Workforce Solutions Office staff does the following:

- Documents the information in TWIST Counselor Notes
- Forwards the finding to TWC’s TAA coordinator at TAA@twc.state.tx.us for a final determination when a preliminary determination of full-time status is reached

Boards must be aware of the following:

- Full- and part-time enrollment determinations are made on a semester-by-semester basis and not on the basis of an entire academic year.
- Full- and part-time enrollment determinations are based on instructor- and course-led participation and do not consider homework, test preparation, or study time.
- Training institutions sometimes use nonstandard enrollment terms and time frames within a semester—for example, Wintermester, Maymester, Minimester, Summer I, and Summer II. Nonstandard terms are associated with specific semesters by the school. Boards must ensure that Workforce Solutions Office staff considers all terms within a semester to determine if enrollment meets full-time status.
Boards must ensure that Workforce Solutions Office staff sends supporting documentation and a recommendation of full- or part-time status for TWC’s final determination to TWC’s TAA coordinator at TAA@twc.state.tx.us in the following cases:

- If a training provider has administrative policies limiting training participation—for example, admission to training under probationary status or remedial status—and a customer participates at the established maximum level, the training can be classified as full time. This does not include circumstances in which a participant is placed on probationary status for academic performance during TAA-supported training.
- If a participant is in the last term of training required to complete his or her REP, but lacks sufficient required coursework to be considered full time, the participant can be classified as full time for the final term.

TWC uses TWIST data to determine TRA eligibility. Boards must ensure that Workforce Solutions Office staff enters TAA training data on full- or part-time status into TWIST, as follows:

- Use TWIST fund code 121–Trade Adjustment Act or 136–TAA/Other.
- For part-time enrollment, also use TWIST sub-fund code 49–Part-Time Training for the appropriate training period of part-time enrollment status.
- At the beginning of each semester or module of training, document in TWIST Counselor Notes with the title “Full-time Status” or “Part-time Status,” the current course load, along with beginning and ending dates of the semester or module.

Note: Customers whose status is changed from part-time to full-time are not considered full-time until the start of the next academic term.

Boards must ensure that Workforce Solutions Office staff reviews full-time status at each career planning opportunity to ensure that the participant has not dropped or failed to register for coursework, and enters any changes in full- or part-time status, including the date of the change, into TWIST Counselor Notes.

C-504: Benchmarking

Boards must be fully aware that benchmarks assist in early intervention and are used in providing the trade-affected worker Completion TRA. To be eligible for Completion TRA a worker must meet the following benchmarks:

- Complete a training program that leads to completion of a degree or industry-recognized credential
- Participate in training during each week for which Completion TRA is filed (breaks in training are not allowed during receipt of Completion TRA)
- Have substantially met the performance benchmarks established in the Reemployment and Training Plan (REP)
- Continue to make progress toward completion of the approved training
- Complete the training during the period authorized for receipt of Completion TRA

C-505: Establishment of Benchmarks

Boards must do the following:
• Establish benchmarks for an adversely affected worker at the time the worker requests Trade Adjustment Assistance (TAA) training approval to ensure the worker’s progress toward completing the training program in the allowable time frame
• Clearly define and monitor the benchmarks to ensure the adversely affected worker advances while in TAA-approved training and completes the training within the established, allowable time frame
• Ensure that benchmarks are flexible and practical—for example, while failing or dropping a single course would likely represent a benchmark failure, it is not necessarily cause to terminate a REP
• Ensure that all benchmarks are listed on the REP

**C-505.a: Benchmark Review**

Boards must ensure that the following requirements are met:

- Determine if the participant has substantially met the performance benchmarks established in the REP by evaluating satisfactory progress against the following two criteria at least once every 60 days, beginning at the start of the REP:
  - Is the participant maintaining satisfactory academic standing (for example, not on probation or determined to be at risk by the instructor or training institution)?
  - Is the participant on track to completing the training within the time frame specified in the REP?
- Document benchmark attainment at least every 60 days and obtain documentation from training providers in one or more of the following methods: transcripts, letters, emails, documented telephone or personal contacts with the training provider attesting to progress and academic standing in the program. (Boards may create locally developed forms to track progress and academic benchmark attainment);
- Get benchmark attainment documentation from the training provider at the end of each semester or training module in the form of assessment test results (Adult Education and Literacy/English as a Second Language/GED), grades, or transcripts. A training provider’s attestation for the interim benchmark review periods is still required, if necessary, to keep within the maximum 60-day review intervals;
- Ensure that Workforce Solutions Office staff, after a second unsatisfactory benchmark review, confirms the following and modifies the REP accordingly:
  - Whether the training still meets the approval criteria
  - Continued Completion TRA eligibility
- If the training no longer meets the approval criteria or the participant continues to fail to make satisfactory progress, recommend termination of the training program by submitting a request and all backup documentation to TAA@twc.state.tx.us.

**C-505.b: Benchmark Documentation in TWIST**

For purposes of maintaining quality case management and the accurate payment of Completion TRA, Boards must ensure that upon benchmark review, Workforce Solutions Office staff determines and documents in TWIST Counselor Notes whether the adversely affected worker is meeting both of the following requirements:

- Making satisfactory progress
- Maintaining satisfactory academic standing
If the adversely affected worker is not meeting these benchmarks, Boards must ensure that Workforce Solutions Office staff does the following:

- Provides a warning to the worker
- Documents in TWIST *Counselor Notes* the areas in which the worker has failed to achieve benchmarks
- Verifies the accuracy of the planned training completion date entered into TWIST
- Indicates whether the adversely affected worker is enrolled in the sequence of courses or classes as stipulated in the approved REP

If the adversely affected worker has deviated from the planned sequence, Boards must ensure that Workforce Solutions Office staff amends the REP to reflect the new sequence of courses and ensures it meets all approval criteria.

### C-506: Training Amendment

Boards must ensure the following:

- Changes to an approved training program are made only for justifiable reasons
- All decisions about changes involve the participant, Workforce Solutions Office staff, and the training provider
- Any changes to an approved training program are based on a thorough review of the participant’s progress in the current occupational training and a reasonable expectation that the training can be completed successfully

Boards must be aware of the following:

- All approved training weeks count toward the applicable Trade Act time limit, even if the program, occupation, or provider is changed.
- If a change to the training program, occupation, provider, time frame, course load, curriculum (not on the original approved/amended plan), or cost is necessary, the local Workforce Solutions Office staff and participant must amend the Reemployment and Training Plan.
- An amendment is required, if the participant is changing full- or part-time training status not on the originally approved Reemployment and Training Plan.

### C-507: Job Development

Job development coordinates an employer’s requirements with the newly obtained skills and credentials of job seekers. OJT is a particularly valuable resource for participants. Employers are more willing to establish an ongoing OJT program if short-term prevocational skills training, remedial education, or intensive dual-language training precedes the OJT.

Boards must ensure that Workforce Solutions Office staff works with BSU staff to identify available positions in the local workforce development area and create good job matches between employers and job seekers.

### C-508: Job Readiness

Boards must ensure that Workforce Solutions Offices provides job readiness workshops that include topics such as interviewing skills, dressing for success, and résumé writing.
**C-509: Performance Information**

Boards must ensure that, after a participant finds employment, Workforce Solutions Office staff continues regular contact with the participant to gather additional information, and enters all performance information into TWIST.
D-100: Job Search and Relocation Allowances

The Trade Adjustment Assistance Reauthorization Act of 2015 (TAARA 2015), like Trade Adjustment Assistance Extension Act of 2011, allows states to decide whether to offer workers certified under TAARA 2015 the opportunity to apply for job search and relocation allowances. Boards must be aware of the following:

- **Job Search Allowances**: Expenses are reimbursable at 90 percent of the necessary expenses up to a maximum of $1,250 for any Trade Adjustment Assistance (TAA) program participant.
- **Relocation Allowances**: Expenses incurred in transporting the participant, the participant’s family, and the participant’s household are reimbursable at 90 percent of the reasonable and necessary costs; a lump-sum payment of three times the participant’s average weekly wage, up to a maximum payment of $1,250 is available.

TAA funding for out-of-area job search and relocation remains at the state level but is available to Trade-certified workers based on the Local Workforce Development Board’s (Board) assessment and referral and the availability of such funds from the U.S. Department of Labor.

D-101: Job Search Allowances

Job search allowances help participants who have active Employment Service work applications on file with job search expenses, such as reimbursements for transportation to job interviews outside the normal commuting area.

Boards must be aware that job search allowances reimburse up to 90 percent of the allowable cost for job searches outside the normal commuting area, up to a cumulative maximum of $1,250, and may be approved if a participant meets the following criteria:

- Suitable employment is not available within the normal commuting area.
- Participant is willing to relocate and has a bona fide job interview.
- Participant applies within 365 days of the petition certification or most recent separation, or within 182 days after the last day of TAA-approved training.
- There is a reasonable expectation the participant will obtain suitable full-time employment of long-term duration in the area where the job search is conducted (part-time employment is not allowed).
- Participant makes a written request and sends it to TWC TAA Technical Assistance through Workforce Solutions Office staff before beginning each job search trip.
- Participant arranges at least one job interview—before leaving for the job search trip—which TWC can verify after the trip.

D-102: Relocation Allowances

Boards may authorize participants for job relocation allowances to help relocate within the United States when local work is not available, and when a participant receives a bona fide job
offer. Job relocation allowances can be up to 90 percent of the allowable transportation and moving costs for a participant, the participant’s family, and the participant’s household goods.

**D-102.a: Relocation Allowances—Eligibility Criteria**

Boards must ensure that Workforce Solutions Office staff considers the following criteria for relocation allowance eligibility:

- The participant is Trade-certified.
- The participant has an active Employment Service work application on file.
- Suitable work is not available within the normal commuting area.

Boards must ensure that the following are in place for any relocation allowance:

- Suitable employment with a reasonable expectation of long-term duration—at least 180 days (six months)—or, a *bona fide* offer of such employment, verified by TWC, in the area of intended relocation; and
- The participant must submit a formal written request before the beginning of the relocation, and before 425 days after petition certification or the date of the most recent total separation, or before 182 days after completing TAA-approved training.

Boards must be aware of the following additional criteria applying to relocation allowances:

- Time limits for beginning and completing a relocation move expire 182 days after the date of application for relocation allowance or 182 days after the completion of training, whichever is later.
- If the participant uses a commercial mover, the maximum allowable weight for household goods is 18,000 pounds. “Self-moves” are allowable also.
- The maximum insurance charge allowed is $50.
- Temporary living expenses are not reimbursable.
- Expenses are paid only for the participant and immediate family members residing with the participant.
- Amounts payable by TAA must be reduced by any amount to which the participant is entitled or is reimbursed from any other source.
- With prior written approval from TWC, relocation allowances may be made available and approved to include the following:
  - Storage of furniture for a maximum of 60 days
  - Extension of the relocation move expiration date

**D-103: Trade Readjustment Allowances**

Boards must be aware that eligible participants may receive weekly Trade Readjustment Allowances (TRA) following exhaustion of unemployment insurance benefits. TRA benefits are generally paid only if the participant is enrolled in a Trade Adjustment Assistance (TAA)-approved training program or has a waiver of the training requirement.

**D-104: Reemployment Trade Adjustment Assistance**

Reemployment Trade Adjustment Assistance (RTAA) is a wage supplement program for older adversely affected workers who find employment paying less than their trade-affected

Boards must be aware of the following:
• RTAA replaces Alternative Trade Adjustment Assistance (ATAA).
• Trade-certified participants working part time while enrolled in TAA-approved training can receive RTAA.
• Employment, as defined by TAARA 2015, Section 246(a)(3)(B), that qualifies the adversely affected worker for RTAA must not pay more than $50,000 annually.
• Trade-certified participants employed by their trade-affected employer cannot receive RTAA.
• The maximum RTAA benefit amount is up to $10,000, paid over two years.
• Workers applying for RTAA may visit a local Workforce Solutions Office for reporting requirements.

D-105: Health Coverage Tax Credit
The Health Coverage Tax Credit (HCTC) is a federal program that helps pay a percent of health insurance premiums for health coverage under qualified plans. Adversely affected workers may claim it as one of the following:
• A tax credit on a federal tax return filed at the end of the year
• An advance reimbursement option upon paying 27.5 percent of the premium on a monthly basis to HCTC

HCTC pays up to 72.5 percent for individuals participating in the Trade Adjustment Assistance (TAA) program and eligible for TRA and ATAA/RTAA.

The Internal Revenue Service (IRS) administers the HCTC program. Additional information on HCTC is available at Health Coverage Tax Credit.

Boards must be aware that to take advantage of HCTC, a Trade-certified worker or ATAA/RTAA recipient must meet the following conditions:
• Be eligible for TRA or ATAA/RTAA
• Be receiving TRA, A/RTAA, or unemployment insurance benefits, if benefits have not been exhausted
• Participate in a qualified health plan
• Be enrolled in a TAA-approved training program or have a waiver of the training requirement by the required deadline dates

D-106: Appeals and Complaints
Boards must ensure that Workforce Solutions Office staff understands the appeals process as it relates to TAA-funded services and that staff informs participants of their right to appeal. Boards also must ensure that Workforce Solutions Office staff documents all interactions with participants and the result of that interaction in TWIST Counselor Notes.
Boards must establish procedures to ensure that any request for TAA-funded services or benefits that is not approved results in a negative recommendation transmitted to TWC’s TAA Technical Assistance.

TAA Technical Assistance makes the final determination on any negative determinations, such as denial of training or waiver, and will notify the participant of the determination and the appeals process and deadlines. Boards must be aware that any failure to provide a requested benefit within a suitable time is a denial of that benefit.

Appeals must be submitted, in writing, within 14 calendar days of the date of the TWC TAA Technical Assistance determination to:

   The Appeals Department  
   101 East 15th Street, Room 410  
   Austin, Texas 78778-0001  
   Fax: (512) 463-2590

Boards also must ensure that participants understand the complaint process under the Workforce Innovation and Opportunity Act, including complaints about training providers.
Local Workforce Development Boards (Boards) must be aware that the Trade Act created a separate program for farmers, which also assists shrimpers and fishermen.

Trade Adjustment Assistance (TAA) eligibility determinations for farmers are the responsibility of the US Department of Agriculture. County farm service agents, working where the farmers reside, perform the actual determinations.

Boards must be aware of the following:

- Farmers certified under the TAA program are eligible for the same basic reemployment services and training that other Trade-certified customers receive.
- Farmers are not, however, eligible for job search or relocation allowances, weekly Trade Readjustment Allowances (TRA), the Health Coverage Tax Credit, or Alternative Trade Adjustment Assistance/Reemployment Trade Adjustment Assistance.
- Because farmers are not eligible for TRA, waivers of the training requirement are not appropriate and there is no “Waiver in Training Deadline Date” or “Training Application Deadline Date.”

TAA-approved training for Trade-certified farmers must adhere to all TAA approval criteria.
### Trade Adjustment Assistance Guide

**Part F – Acronyms, Terms, and Definitions**

**F-100: Acronyms, Terms, and Definitions**

**Table 2: Definitions**

<table>
<thead>
<tr>
<th>Term</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>AEL</td>
<td>Adult Education and Literacy</td>
</tr>
<tr>
<td>Average Weekly Wage</td>
<td>One-thirteenth (1/13) of the total wages paid to a worker in the worker’s high quarter. The high quarter for the worker is the quarter in which the total wages paid to the worker were highest among the first four of the last five completed calendar quarters preceding the worker’s last qualifying separation.</td>
</tr>
<tr>
<td>Basic Career Services</td>
<td>Basic career services are universally accessible and must be made available to all individuals seeking services in Workforce Solutions Office and the Texas workforce system.</td>
</tr>
<tr>
<td>Board</td>
<td>Local Workforce Development Board</td>
</tr>
<tr>
<td>Career Services</td>
<td>The Workforce Innovation and Opportunity Act (WIOA) authorizes “career services” for adults and dislocated workers, rather than “core” and “intensive” services, as authorized under the Workforce Investment Act (WIA). There are three types of career services: basic, individualized, and follow-up. These services can be provided in any order; there is no requirement. Career services under this approach provide local workforce development areas and service providers with flexibility to target services to the needs of the customer.</td>
</tr>
<tr>
<td>Dislocated Worker</td>
<td>A worker who was permanently laid off or received a notice of termination or layoff from employment, or is employed at a facility at which the employer made a general announcement that the facility will close.</td>
</tr>
<tr>
<td>DOL</td>
<td>US Department of Labor</td>
</tr>
<tr>
<td>ESL</td>
<td>English as a Second Language</td>
</tr>
<tr>
<td>ETPS</td>
<td>Eligible Training Provider System. A Texas Workforce Commission (TWC) review process that requires training providers to register with the state in order to be eligible to provide services funded by WIA/WIOA. Training providers must attain ETPS certification with TWC.</td>
</tr>
<tr>
<td>Term</td>
<td>Definition</td>
</tr>
<tr>
<td>-------------------------------</td>
<td>------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Follow-up Services</td>
<td>Follow-up services must be provided as appropriate by partner staff to participants who are placed in unsubsidized employment, for up to 12 months after the first day of employment. Counseling about the workplace is an appropriate type of follow-up service. Follow-up services do not extend the date of exit in performance reporting.</td>
</tr>
<tr>
<td>GED</td>
<td>General Education Development</td>
</tr>
<tr>
<td>HCTC</td>
<td>Health Coverage Tax Credit</td>
</tr>
<tr>
<td>Individualized Career Services</td>
<td>If Workforce Solutions Office staff determines that individualized career services are appropriate for an individual to obtain or retain employment, these services must be made available to the individual. Generally, these services involve significant staff time and customization to the individual’s need.</td>
</tr>
<tr>
<td>Job Location</td>
<td>A worker’s physical place of work at the time the worker was separated from a trade-affected employer.</td>
</tr>
<tr>
<td>Layoff</td>
<td>A suspension of, or separation from, employment by a firm for lack of work, initiated by the employer, and expected to be for a definite or indefinite period of no less than seven consecutive days.</td>
</tr>
<tr>
<td>Long-term Employment</td>
<td>Employment expected to last at least 150 days</td>
</tr>
<tr>
<td>Number of Hours Worked Per Week</td>
<td>The usual number of hours of work scheduled per week, including overtime, in whole hour increments (no fractions of hours).</td>
</tr>
<tr>
<td>Period of Participation</td>
<td>Refers to the period beginning when an individual becomes a participant and ending on the participant’s date of exit from the program.</td>
</tr>
<tr>
<td>Petition Status</td>
<td>The status of a Trade petition throughout the DOL investigation process. Petition status is identified by the following terms:</td>
</tr>
<tr>
<td></td>
<td>• Petition filed</td>
</tr>
<tr>
<td></td>
<td>• Investigation terminated</td>
</tr>
<tr>
<td></td>
<td>• Certified</td>
</tr>
<tr>
<td></td>
<td>• Not certified</td>
</tr>
<tr>
<td>Term</td>
<td>Definition</td>
</tr>
<tr>
<td>------</td>
<td>------------</td>
</tr>
<tr>
<td>REP</td>
<td>Reemployment and Training Plan. An intensive career service in which Workforce Solutions Office staff works with the participant to identify an in-demand occupation that meets the 80 percent wage replacement goal, then develops a plan to address the occupational goal, the appropriate achievement objectives, and the combination of services needed for the participant to obtain his or her long-term occupational goals. The REP names the specific occupation to be obtained as well as a training plan that will make the participant “job ready” at the completion of training.</td>
</tr>
<tr>
<td>Rapid Reemployment Services</td>
<td>Previously Worker Profiling and Reemployment Services.</td>
</tr>
<tr>
<td>RTAA</td>
<td>Reemployment Trade Adjustment Assistance</td>
</tr>
<tr>
<td>State Qualified Health Plan</td>
<td>HCTC-related: Health plans that have been qualified by the Texas Department of Insurance (TDI) as meeting the requirements set forth in the Trade Adjustment Reform Act of 2002. A list of these plans will be submitted to the US Treasury Department by TDI.</td>
</tr>
<tr>
<td>Suitable Employment</td>
<td>With respect to a Trade-certified worker, work of a substantially equal or higher skill level than the worker’s past employment, with wages of not less than 80 percent of the worker’s average weekly wage. The availability of suitable employment is used to determine whether or not the participant is eligible for TAA-funded training.</td>
</tr>
<tr>
<td>Support Services</td>
<td>Services such as transportation, child care, dependent care, and housing that are necessary to enable a participant to participate in activities authorized under WIOA.</td>
</tr>
<tr>
<td>TAA</td>
<td>Trade Adjustment Assistance</td>
</tr>
<tr>
<td>TRA</td>
<td>Trade Readjustment Allowances. Weekly TRA may be payable to eligible claimants when they exhaust UI benefits. TRA benefits will be paid if a claimant is enrolled in a TAA-approved training program or has a waiver of the training requirement. TRA payment is the basis for HCTC eligibility.</td>
</tr>
<tr>
<td>Training Services</td>
<td>Under WIOA and TAA, training services may include occupational skills training, vocational skills training, dual-language training—which provides the necessary vocational skills and remedial education together in an integrated curriculum (also called contextual learning or integrated vocational skills training)—or employer-based training such as on-the-job training (OJT) and customized training.</td>
</tr>
<tr>
<td>TWC</td>
<td>Texas Workforce Commission</td>
</tr>
<tr>
<td>TWIST</td>
<td>The Workforce Information System of Texas</td>
</tr>
<tr>
<td>UI</td>
<td>Unemployment Insurance</td>
</tr>
<tr>
<td>Term</td>
<td>Definition</td>
</tr>
<tr>
<td>------------</td>
<td>-----------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Waiver</td>
<td>A determination that training is not currently feasible for a TAA participant. Also known as “Waiver of the Training Requirement,” “Waiver of Training,” or “Training Waiver.”</td>
</tr>
<tr>
<td>WARN Notice</td>
<td>Worker Adjustment and Retraining Notification</td>
</tr>
<tr>
<td>WIOA</td>
<td>Workforce Innovation and Opportunity Act</td>
