

Developing Career & Technical Education Programs

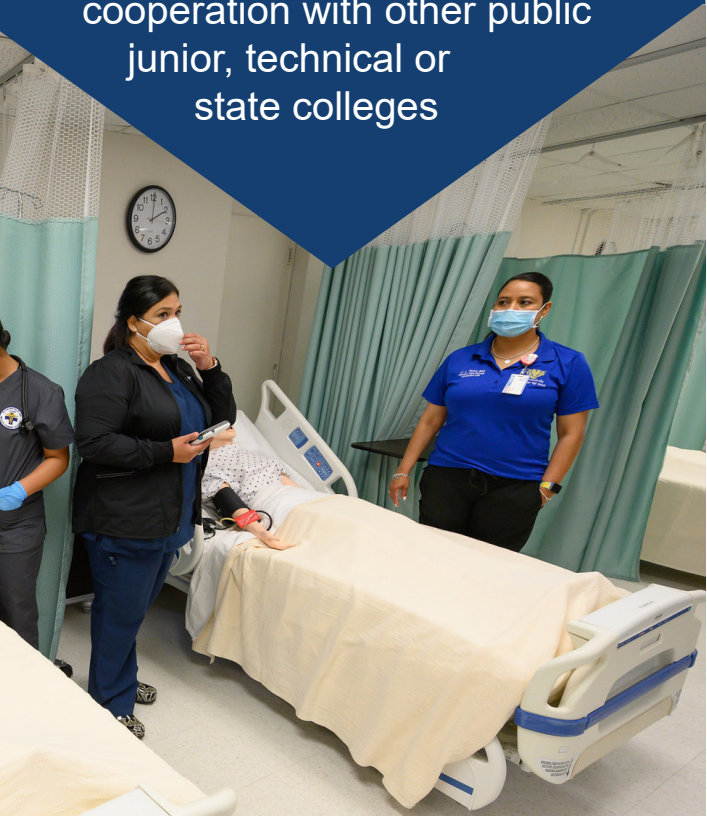

Jobs & Education for Texans (JET)

WHICH PROGRAMS ARE ELIGIBLE?

JET grants support the purchase of equipment connected to new or expanding CTE programs which:

- Prepare students for employment in local high-demand occupations;
- Lead to a license, certificate, or postsecondary degree; and
- Are provided in school districts in cooperation with other public junior, technical or state colleges

ELIGIBLE GRANTEEES INCLUDE

- Public junior, state, or technical colleges
- ISDs, and open-enrollment charter schools entered into a partnership with a public junior, state, or technical college
- Windham School District

HOW MUCH CAN YOU APPLY FOR IN 2023?

- All eligible entities (Public junior, state, or technical colleges; ISDs, and open-enrollment charter schools entered into a partnership with a public junior, state, or technical college; and the Windham School District) can submit one application for this RFA period.
- All applications must be submitted at an amount between \$40,000-\$350,000

HOW MUCH FUNDING IS AVAILABLE?

For the 2023 JET grant RFA cycle, \$7.5 million of general revenue will be available for applications from all eligible institutions.

In addition, through the action of the 87th Texas Legislature, and partnership with the Texas Education Agency (TEA), TWC will have approximately \$1 million available for ISDs, Windham School District, and open-enrollment charter schools to compete for. Applications will be competitively ranked and must meet a minimum threshold.
