## Tuition Payment Calculation Worksheet for Private or Out-of-State Training

Follow the instructions below to calculate the amount that VR can pay toward the cost of the customer's tuition and required fees for training at a private or out-of-state 2-year college, technical college, state college, four-year college, university, or health-related institution:

Refer to the VRSM Part C, Chapter 10.2 Postsecondary - College and University Training and Part C, Chapter 10.3 Postsecondary - Proprietary Schools for policy and procedures.

Note: This form will not auto-calculate the amounts entered.

Customer name:	Case ID:
VR staff completing worksheet:	Date:

### 1. Calculating Maximum VR Rate for Private or Out-of-State Training Institutions

Credit Hours	Rate per Policy	Maximum VR Rate
	x \$138 (C.10.2 Two-Year College)	=
	x \$285 (C.10.2 Technical College)	=
	x \$118 (C.10.2 State College)	=
	x \$394 (C.10.2 Four-year College/University)	=
	x \$463 (C.10.2 Health Related Institution)	=
	x \$138 (C.10.3 Proprietary Institution)	=

### 2. Calculating Tuition after Pell Grant, need based scholarships, and/or grants.

Combined Tuition/Fees	Pell Grant + Need-based scholarships + Grants	Tuition after Grants/Scholarships
	-	=

### 3. Calculating Tuition after Required Customer Participation in Cost of Services

Tuition after Grants/Scholarships	Required customer participation in cost of services	Tuition after required customer participation in cost of services
	-	=

### 4. If Tuition after BLR is less than Maximum VR Rate

VR Tuition Payment = Tuition after BLR (#3)

### 5. If Maximum VR Rate is less than Tuition after BLR

VR Tuition Payment = Maximum VR Rate (#1)
