

SKILLS

For Small Business

Advance Your Workforce. Grow Your Business.

The Texas Workforce Commission (TWC) has made resources available through the Skills for Small Business grant program to help Texas employers invest in their employees and grow their business.

Small businesses can apply for training provided by a local community or technical college. TWC will process the application and work with colleges to fund the courses.

Reimbursements cover:

- Up to \$2,000 for new employees (employed less than 12 months)
- Up to \$1,000 for incumbent employees (employed 12 months or more)

Who Is Eligible to Apply?

Texas businesses with fewer than 100 employees are invited to apply.

Who Can Be Trained?

Most full time, W-2 paid employees who meet the prevailing wage threshold are eligible to participate. Managers and business owners may also be eligible to participate, dependent on job duties.

Invest in Your Employees

Scan the QR code or visit the link below for more information. Ready to address your training needs? Complete an [employer interest form](#), and our team will help you get started.
