Subject: **Workforce Automated Systems Data Entry Deadlines for Board Contract Year 2022—Update**

PURPOSE:

The purpose of this updated WD Letter is to provide Local Workforce Development Boards (Boards) with information and guidance on Board Contract Year 2022 (BCY'22) data entry deadlines for:

- The Workforce Information System of Texas (TWIST); and
- WorkInTexas.com.

Additionally, the child care direct care data entry deadlines for BCY'22 have been updated.

RESCISSIONS:

WD Letter 14-21

BACKGROUND:

To meet required reporting and performance measures, service and outcome data for Texas workforce system customers must be entered accurately and in a timely manner into TWIST and WorkInTexas.com. The data is used to generate reports and information that the Texas Workforce Commission (TWC) and Boards use to:

- manage, monitor, and assess Board performance;
- fulfill reporting requirements of the US Department of Labor, US Department of Health and Human Services, US Department of Agriculture, and the Legislative Budget Board; and
- report data for the Texas Veterans Commission.

PROCEDURES:

No Local Flexibility (NLF): This rating indicates that Boards must comply with the federal and state laws, rules, policies, and required procedures set forth in this WD Letter and have no local

flexibility in determining whether and/or how to comply. All information with an NLF rating is indicated by “must” or “shall.”

Local Flexibility (LF): This rating indicates that Boards have local flexibility in determining whether and/or how to implement guidance or recommended practices set forth in this WD Letter. All information with an LF rating is indicated by “may” or “recommend.”

NLF: Boards must ensure that data is entered on a daily or other regular basis throughout the month. To ensure that the most up-to-date information is available for reporting, Boards must ensure that the deadlines set forth in this WD Letter are met for entering data, activities, services, and outcomes into TWIST and WorkInTexas.com, as applicable.

NLF: Boards must ensure that all participant data, activities, services, and outcomes are entered into the appropriate automated system by 6:00 p.m. (Central Standard Time) as outlined below.

TWIST and WorkInTexas.com Data

NLF: Effective October 1, 2021, Boards must enter data into TWIST and WorkInTexas.com by the first Friday that is at least three working days after the month in which:

- services are provided; or
- the customer enters or completes activities.

NLF: Boards must be aware that data entry deadlines already account for weeks with holidays in them.

Note: If the TWIST and WorkInTexas.com data entry deadline for a given month is before the date that the Texas Health and Human Services Commission forwards the Temporary Assistance for Needy Families (TANF) warrant file to TWC, data entered after the data entry deadline—but before TWIST processes the TANF warrant file—will be included in Choices Participation performance reported in the monthly performance report for that month.

Child Care Data

NLF: Boards must enter waiting list information into the [Child Care Waiting List Report form](#) by the 10th day of the month following the month being reported. (The intranet is not available to the public.)

NLF: Boards must enter direct care data into TWIST by November 24, 2021, for October 2021 child care and then by the 20th day of the month following the month in which services were provided for November 2021 to September 2022 child care.

NLF: Boards must be aware that child care deadlines are not extended if the deadline falls on a weekend or a holiday. Data that is not entered in a timely manner into the appropriate data system will not be used for performance reporting for that month.

The following calendar sets out the specific data entry deadline dates.

NLF: Boards must report financial data used in performance measures—such as Average Cost Per Customer Served and Child Care Administration and Operating Expenditure Rate—in a timely manner, per the Finance department’s guidance.

End-of-Year Reporting

NLF: Boards must be aware that data not entered in a timely manner into the appropriate system, according to year-end reporting deadlines, may not be used in BCY’22 year-end reporting, even if the data is later updated within the Quarter + 20 period. Note that not all measures listed below are formally contracted to Boards for BCY’22.

NLF: Boards must ensure timely data entry; if data cannot be updated outside of the data integrity process, then the closer such requests are made to the data entry deadlines, the more likely the requests will not be processed in time to be considered for year-end reporting.
