

SEQUENCE OF SERVICES FLOW CHART

NOTES:

1. WIA eligibility should be determined prior to registration into WIA. Eligibility is valid for 45 days.
2. WIA registration is where performance begins. It should occur after eligibility determination and before a client begins Assisted Core Services.
3. Boards should make every effort to obtain minimal preregistration data from clients who are obtaining Core services. This information should include: Name, SSN, and address, etc. The collection of this data is strongly encouraged to allow the State and Boards to track the Core services being provided.
4. WIA funds can be used to provide Core services.
5. Eligibility determination is separate and distinct from WIA registration.
