4	Background
5 6	On September 30, 2021, the Jobs and Education for Texans (JET) Advisory Board met to discuss the program parameters and funding for FY 2022.
7 8 9 10 11 12 13 14 15 16	HB 1525 (87R) requires the Texas Education Agency (TEA) to create programs that support school districts and open-enrollment charter schools to implement intensive supports using state discretionary funds under the Coronavirus Response and Relief Supplemental Appropriations Act and American Rescue Plan Act of 2021 to ensure students perform at grade level and graduate demonstrating college, career, or military readiness. Such programs must provide expanded learning options for P-TECH programs, the Texas Regional Pathways Network, and the TWC-administered Jobs and Education for Texas (JET) Grant program and include supplemental instructional supports and COVID-19 learning acceleration supports. According to the TEA, \$50 million dollars will be available for open enrollment charter schools and school districts during the FY 2022-2023 biennium (5% of the \$50 million dollars can be used towards administrative costs).
17 18	Additionally, TWC was appropriated \$7.52 million in General Revenue per year for the FY 2022-2023 biennium.
